## Section 1: Overview of WHO Africa Region 11/06/2020

### Overview

**Total Reported Cases**  
**147390**

**Total Reported Deaths**  
**3564**

## Methods

We compare the size and rate of increase of the COVID-19 epidemic across the countries included in WHO Africa Region.

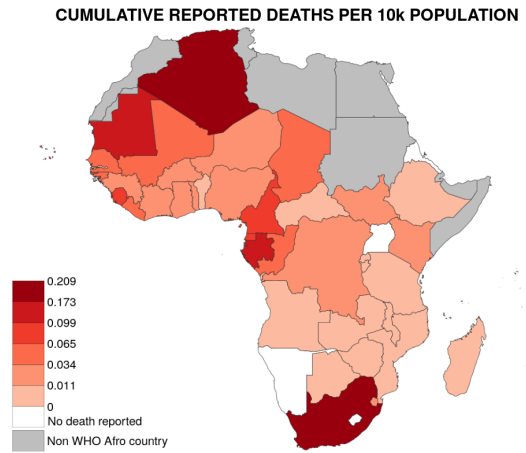

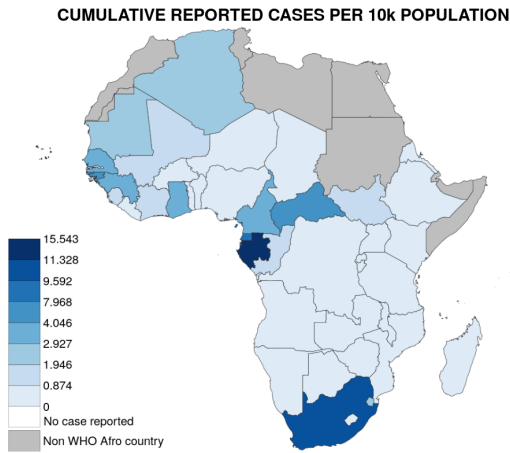

The maps below summarise the in-country situations:

- Top row: cumulative reported cases (left) and deaths (right).
- Middle row: cumulative reported cases (left) and deaths (right) per 10,000 population on a log10 scale.
- Bottom row: overview of doubling time of cumulative reported cases (left) and deaths (right). Doubling times are estimated over a 7 day period up to 11/06/2020. Doubling time is an easily understood measure of how fast the epidemic is growing when the case reproduction number,  $R$ , is greater than 1. The lower the doubling time the faster the national COVID-19 epidemic is growing. For individual country plots we use a related metric, the relative increase in the size of the national epidemic over the past 7 days. A relative increase of 2 corresponds to a doubling time of exactly 7 days.

Caveats:

- Colour scales are non-linear and are re-calibrated every week.
- WHO African region countries shaded in white either have no reported deaths/cases or, for doubling time calculations, have reduced their cumulative total cases/deaths in the last 7 days due to retrospective changes in reporting procedures.

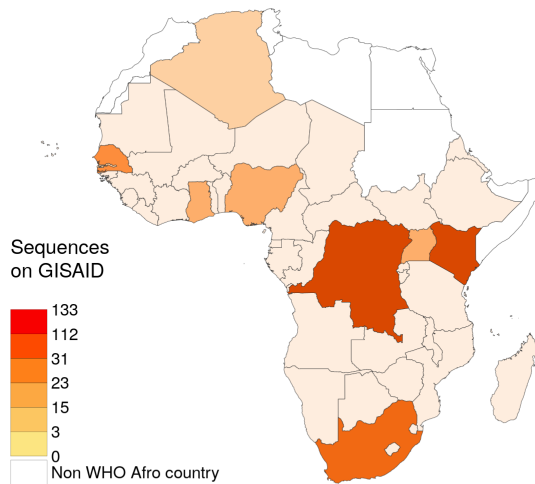

# Summary maps

## Sequencing

As of 11/06/2020, SARS-CoV-2 genomes have been collected and sequenced from 359 patients across Africa and submitted to GISAID. Each genome's country of origin and collection date is summarised below:

- Top graph: SARS-CoV-2 genomes available on GISAID by collection date. 6 genomes from the Democratic Republic of the Congo, 110 genomes from Kenya and 1 genome from Nigeria are removed due to incomplete collection dates.
- Bottom map: SARS-CoV-2 genomes available on GISAID by country.

## Section 2: Individual country situations

As of 11/06/2020, each panel below shows for each country:

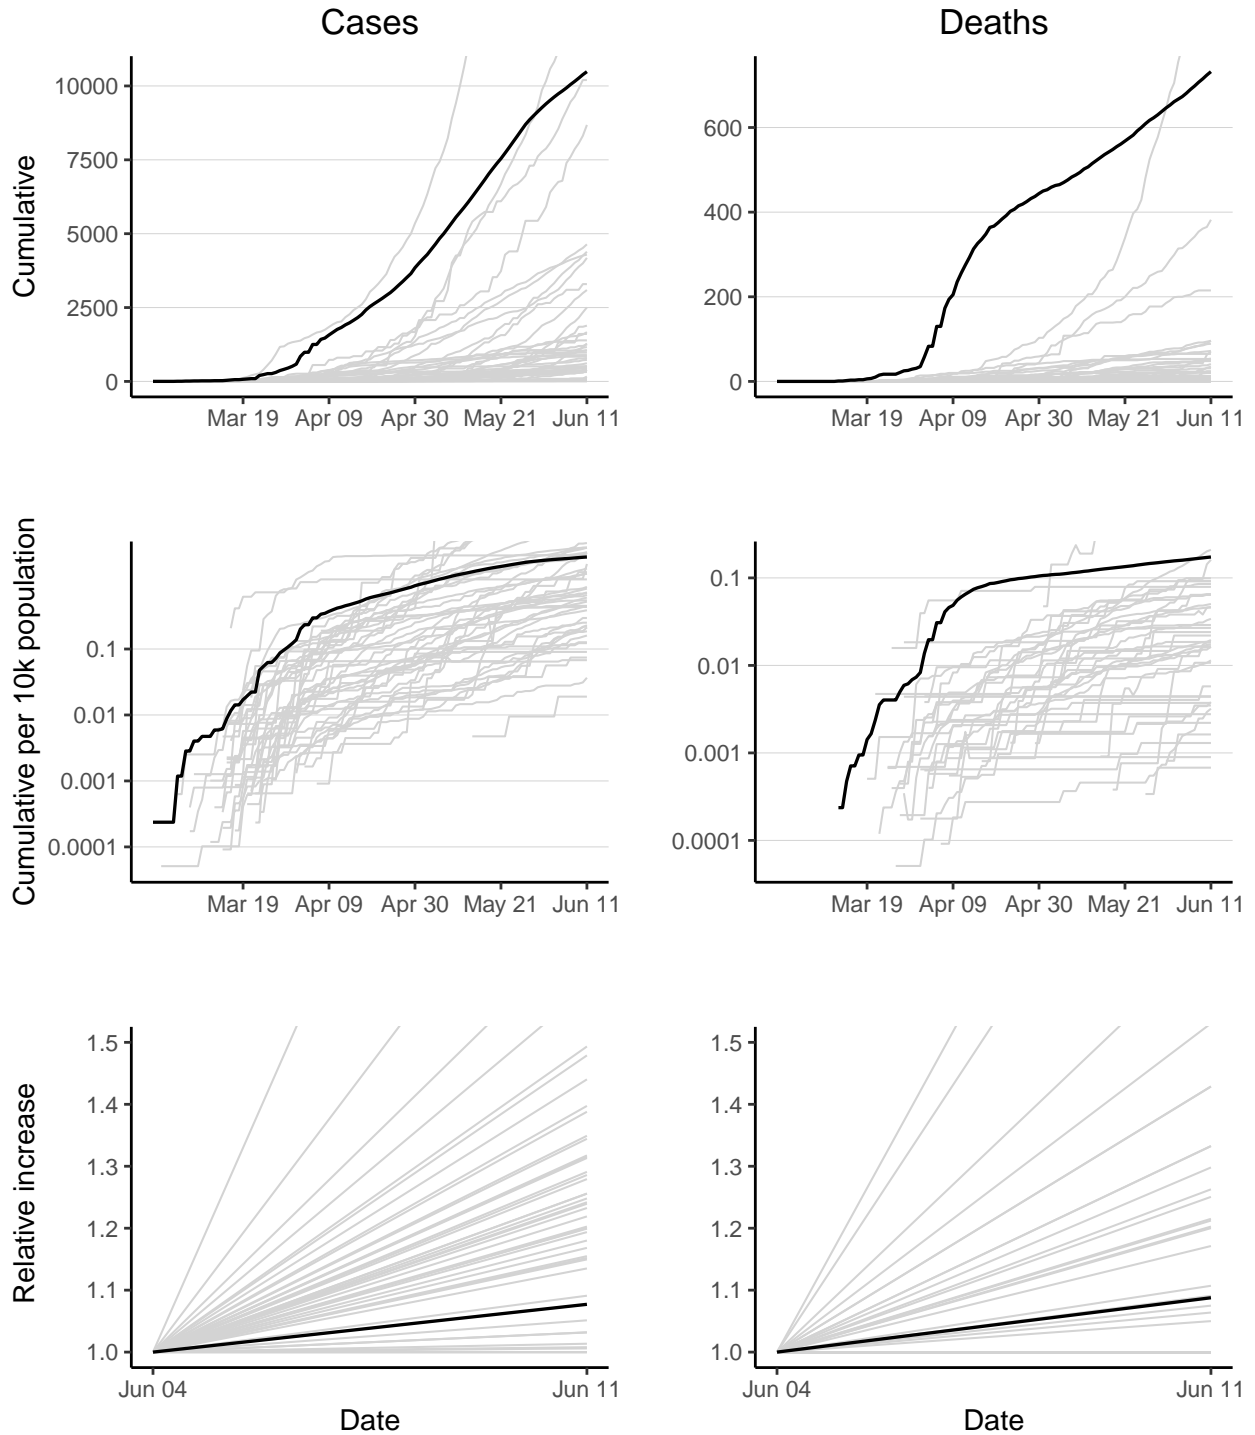

- Top row: cumulative reported cases (left) and deaths (right).
- Middle row: cumulative reported cases (left) and deaths (right) per 10,000 population on a log10 scale.
- Bottom row: relative increase in cumulative number of cases (left) and deaths (right) over the 7 day period leading up to 11/06/2020. A relative increase of 2 corresponds to a doubling time of exactly 7 days.

Caveats;

- Retrospective changes in reporting policy may cause cumulative deaths/cases counts to drop as described in WHO Sit Rep Number 105, published on 04/05/2020.

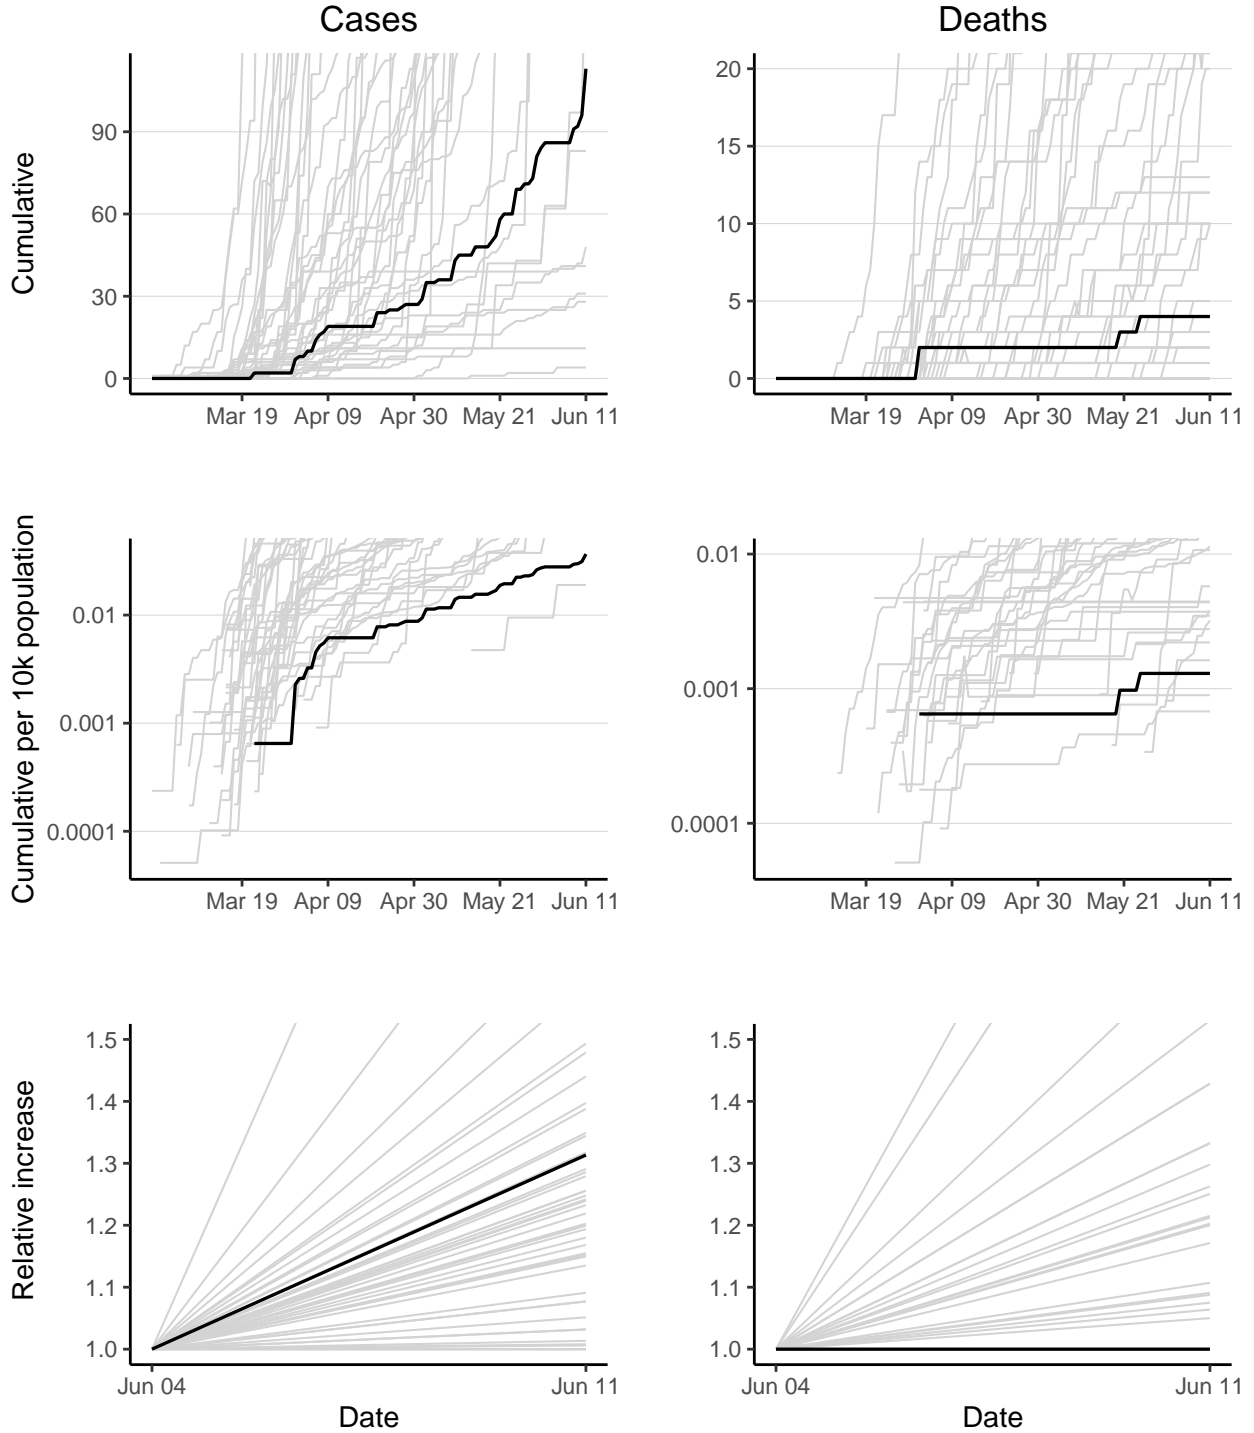

# Algeria

Algeria has 10484 reported case(s) (3rd in the region) and 732 reported death(s) (2nd). Cumulative counts per 10,000 population of reported cases and deaths are 2.5 (15th) and 0.17 (3rd) respectively. The doubling times of reported cases and deaths over the last 7 days are 65.3 days (36th) and 57.7 days (19th).

# Angola

Angola has 113 reported case(s) (40th in the region) and 4 reported death(s) (32nd). Cumulative counts per 10,000 population of reported cases and deaths are 0.037 (46th) and 0.0013 (40th) respectively. The doubling time of reported cases over the last 7 days is 17.8 days (14th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Benin

Benin has 339 reported case(s) (36th in the region) and 4 reported death(s) (33rd). Cumulative counts per 10,000 population of reported cases and deaths are 0.3 (34th) and 0.0035 (35th) respectively. The doubling times of reported cases and deaths over the last 7 days are 14.8 days (9th) and 16.9 days (7th).

# Botswana

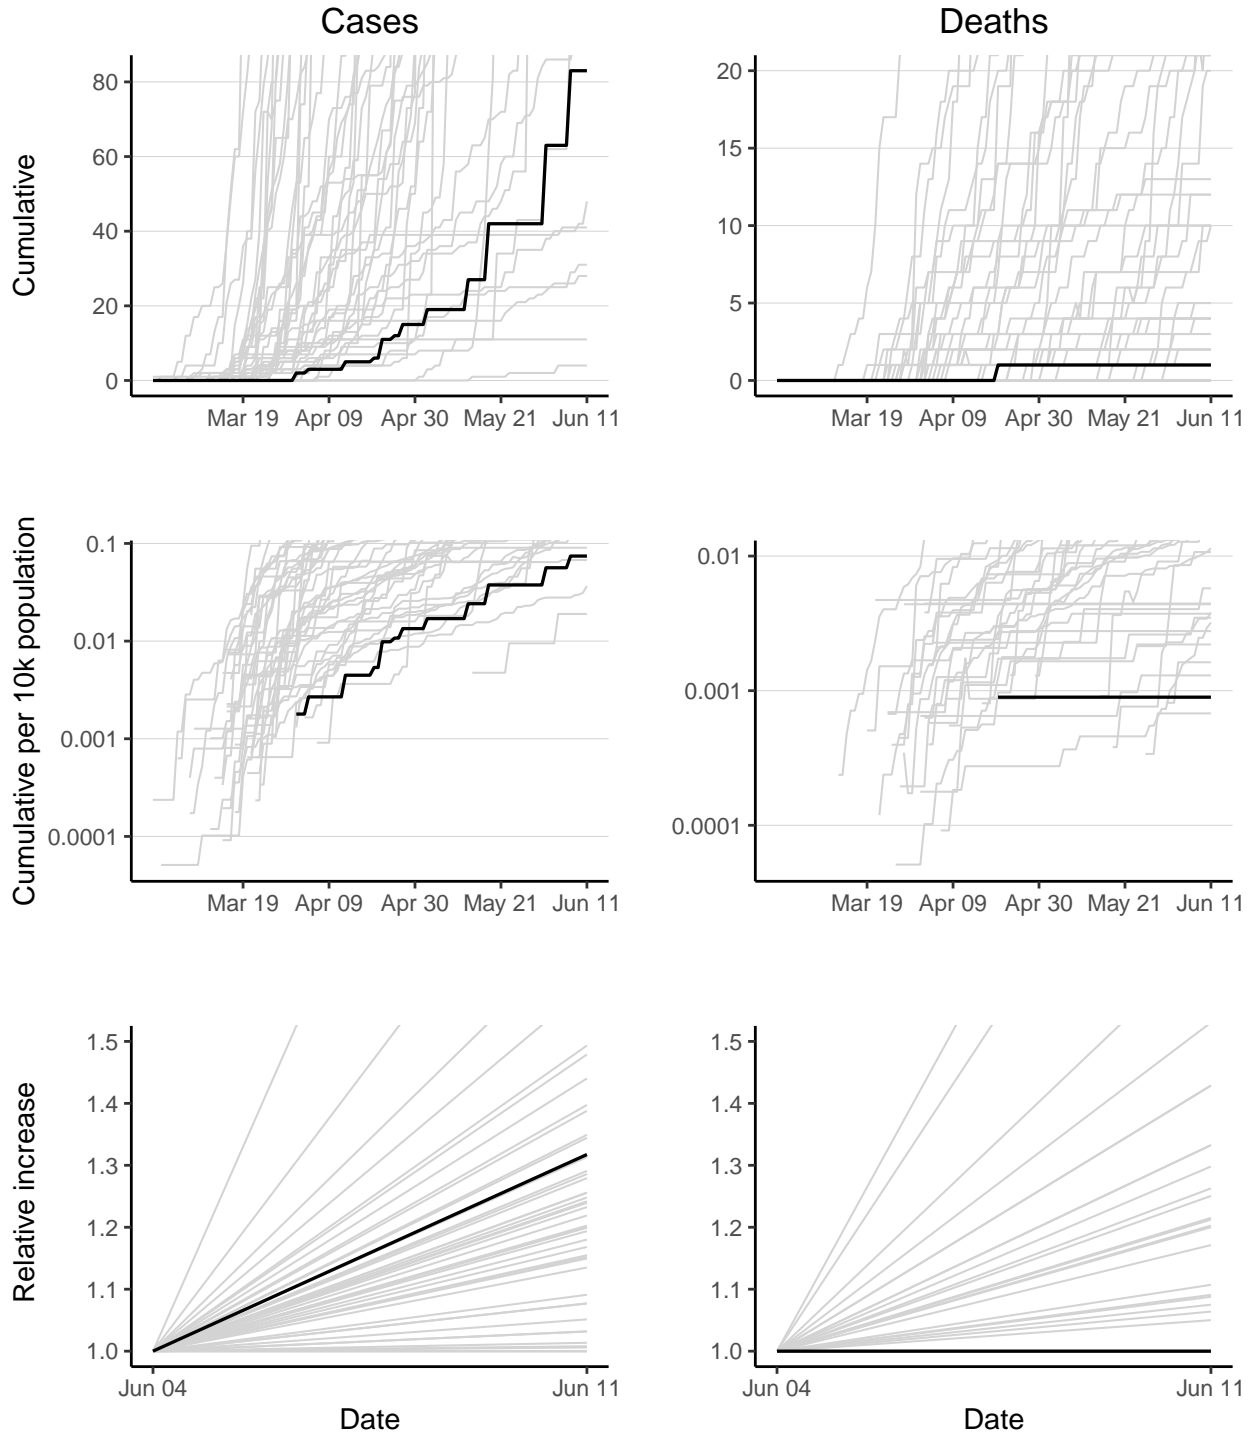

Botswana has 48 reported case(s) (42nd in the region) and 1 reported death(s) (40th). Cumulative counts per 10,000 population of reported cases and deaths are 0.21 (38th) and 0.0044 (31st) respectively. The doubling time of reported cases over the last 7 days is 26.6 days (26th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Burkina Faso

Burkina Faso has 891 reported case(s) (23rd in the region) and 53 reported death(s) (12th). Cumulative counts per 10,000 population of reported cases and deaths are 0.45 (30th) and 0.027 (18th) respectively. The doubling time of reported cases over the last 7 days is 615.2 days (42nd). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Burundi

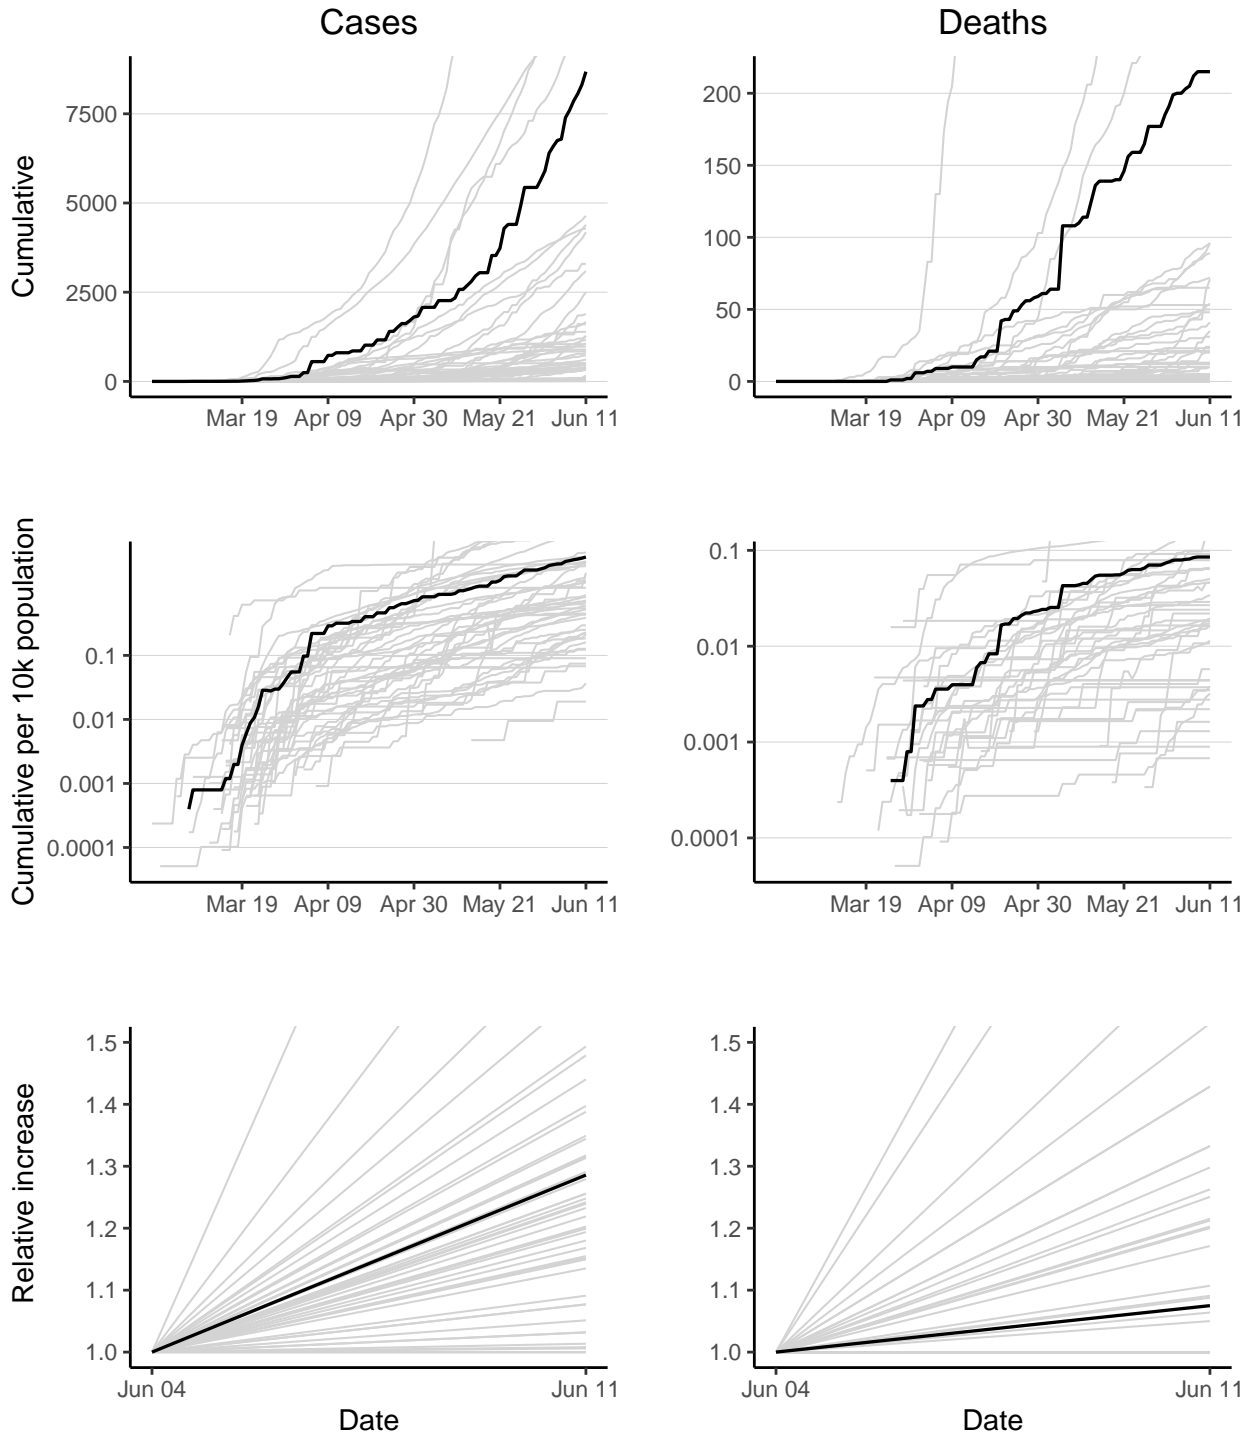

Burundi has 83 reported case(s) (41st in the region) and 1 reported death(s) (41st). Cumulative counts per 10,000 population of reported cases and deaths are 0.074 (44th) and 0.00089 (41st) respectively. The doubling time of reported cases over the last 7 days is 17.6 days (12th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Cabo Verde

Cabo Verde has 616 reported case(s) (27th in the region) and 5 reported death(s) (30th). Cumulative counts per 10,000 population of reported cases and deaths are 11 (3rd) and 0.092 (6th) respectively. The doubling time of reported cases over the last 7 days is 19 days (15th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Cameroon

Cameroon has 8681 reported case(s) (5th in the region) and 215 reported death(s) (4th). Cumulative counts per 10,000 population of reported cases and deaths are 3.4 (9th) and 0.085 (8th) respectively. The doubling times of reported cases and deaths over the last 7 days are 19.3 days (16th) and 67.1 days (20th).

# Central African Republic

Central African Republic has 1888 reported case(s) (13th in the region) and 5 reported death(s) (31st). Cumulative counts per 10,000 population of reported cases and deaths are 4 (7th) and 0.011 (29th) respectively. The doubling times of reported cases and deaths over the last 7 days are 10.5 days (4th) and 21.7 days (11th).

# Chad

Chad has 846 reported case(s) (24th in the region) and 72 reported death(s) (8th). Cumulative counts per 10,000 population of reported cases and deaths are 0.55 (28th) and 0.047 (14th) respectively. The doubling times of reported cases and deaths over the last 7 days are 155.4 days (40th) and 55.8 days (18th).

# Comoros

Comoros has 162 reported case(s) (39th in the region) and 2 reported death(s) (37th). Cumulative counts per 10,000 population of reported cases and deaths are 1.9 (16th) and 0.024 (19th) respectively. The doubling time of reported cases over the last 7 days is 5.1 days (1st). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Congo

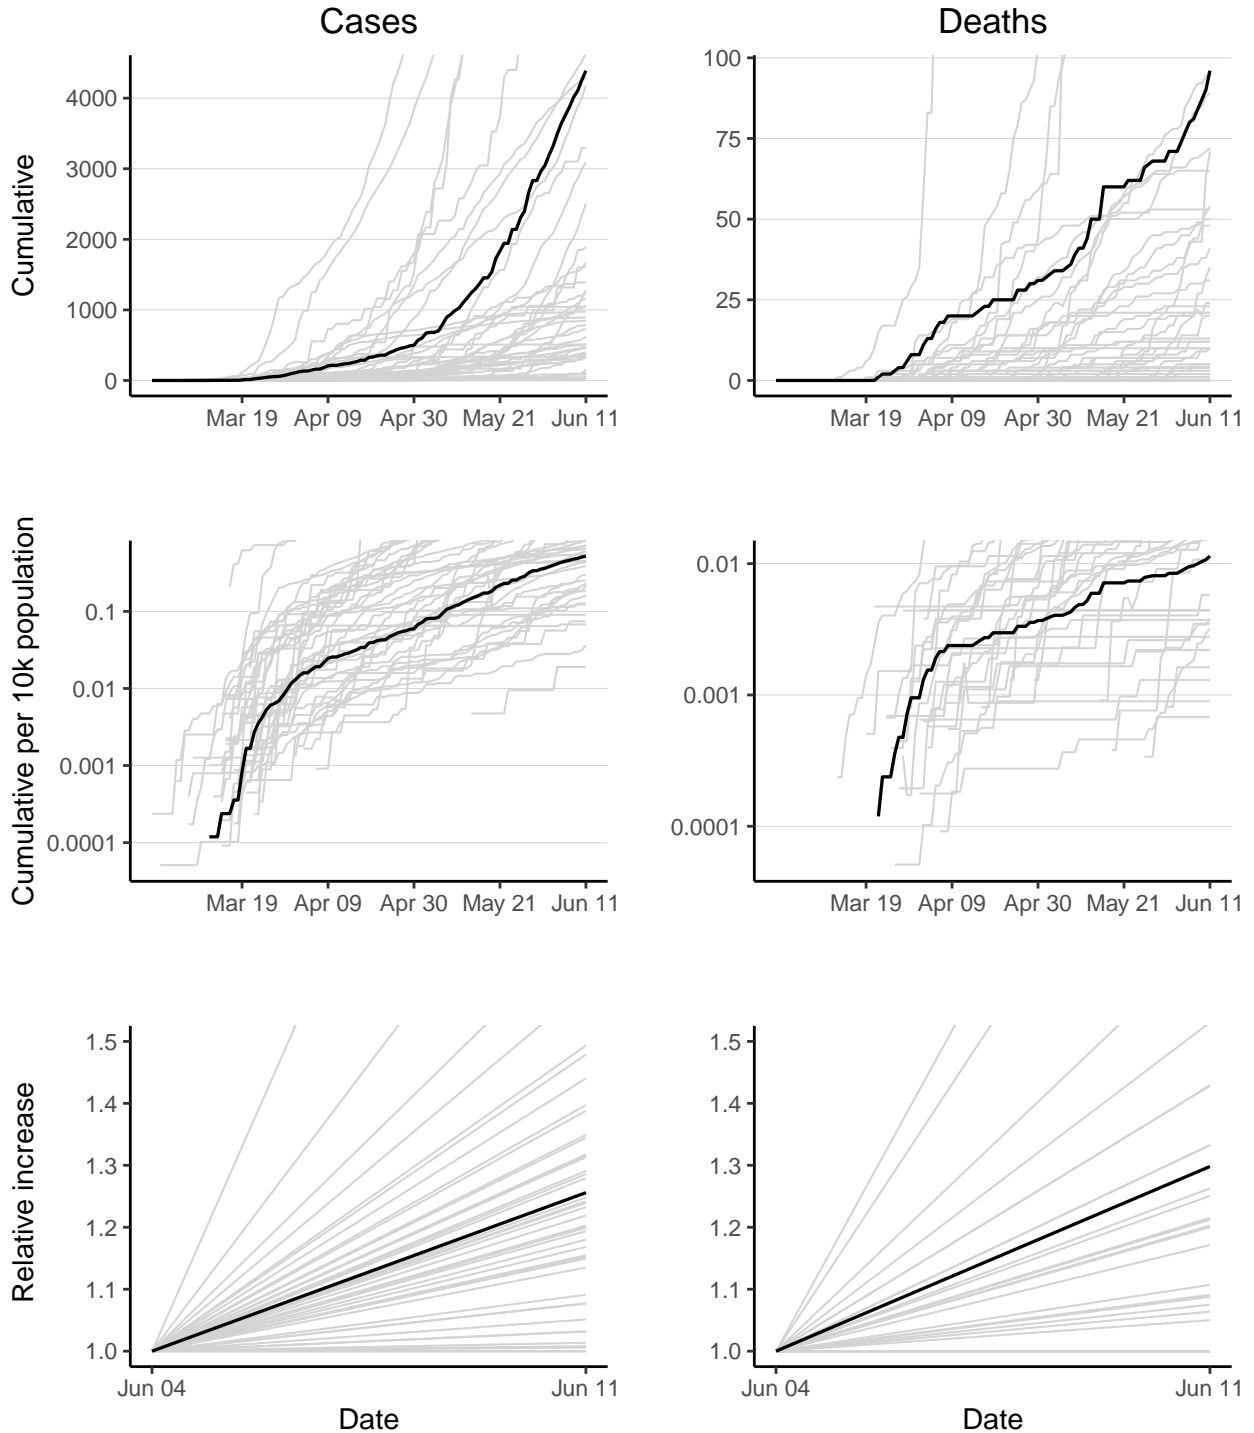

Congo has 728 reported case(s) (26th in the region) and 24 reported death(s) (18th). Cumulative counts per 10,000 population of reported cases and deaths are 1.4 (20th) and 0.046 (15th) respectively. The doubling time of reported cases over the last 7 days is 34.3 days (32nd). The doubling time of reported deaths cannot be calculated as some deaths have been redacted in last 7 days.

# Cote d'Ivoire

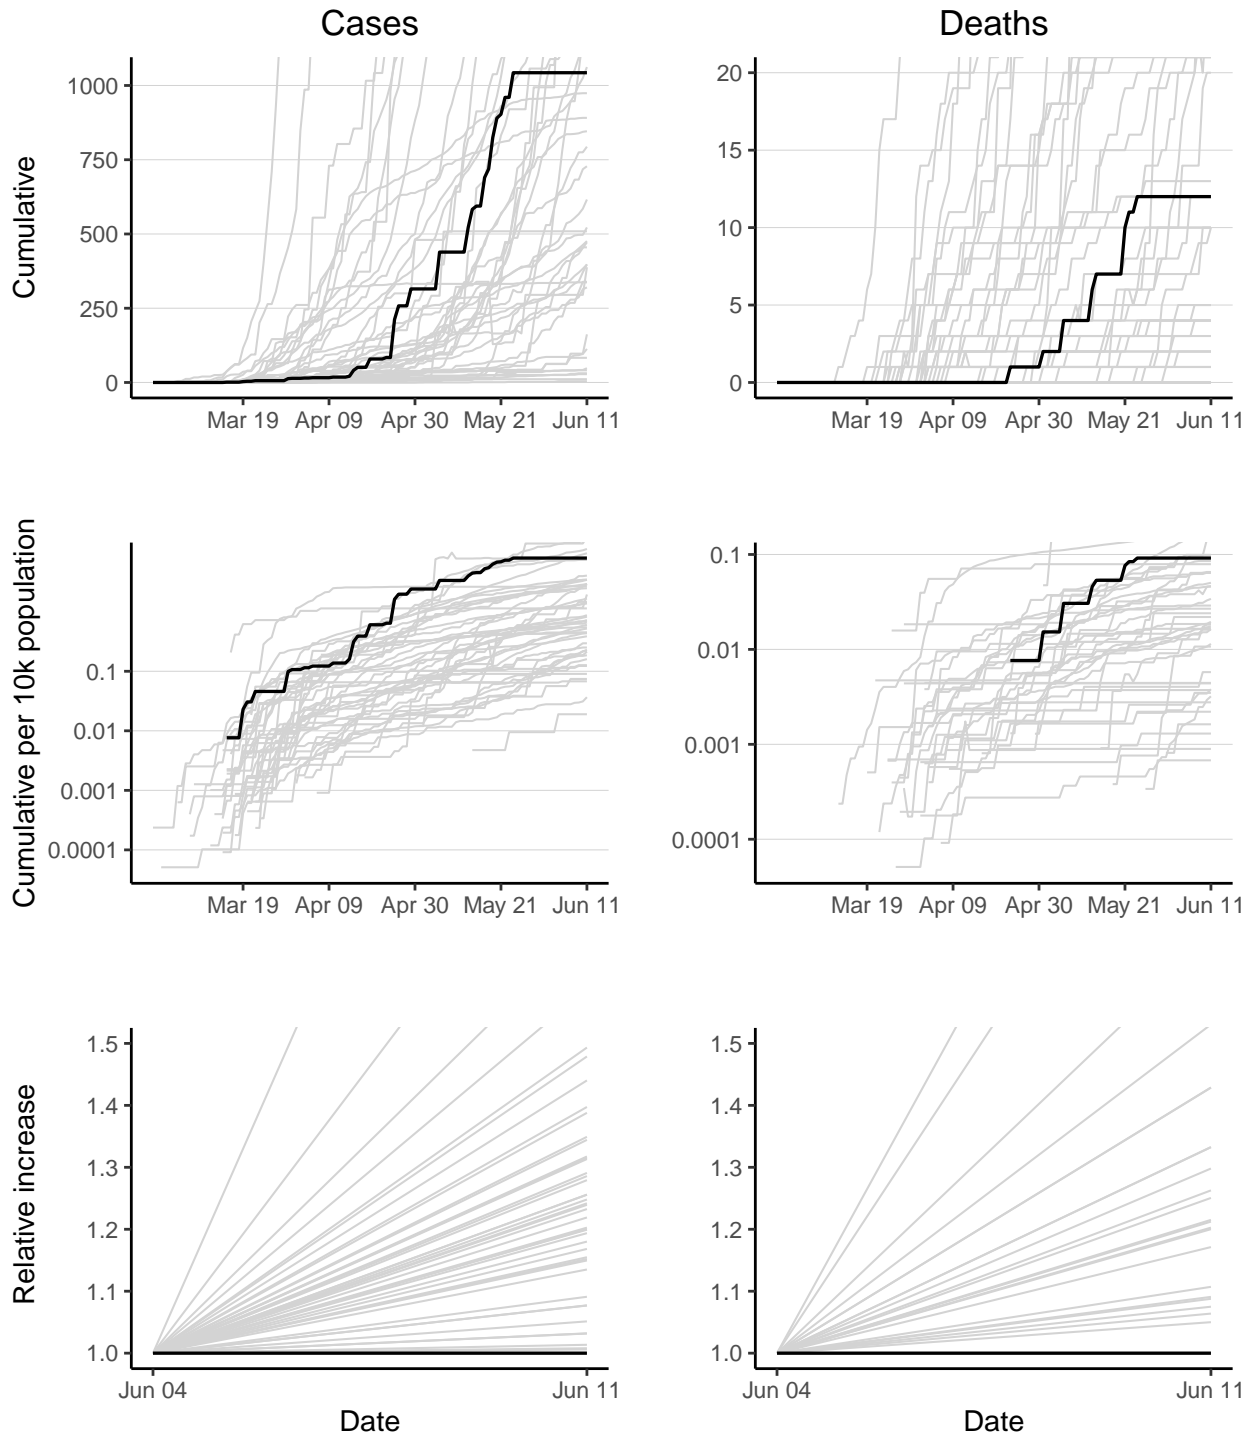

Cote d'Ivoire has 4181 reported case(s) (9th in the region) and 41 reported death(s) (15th). Cumulative counts per 10,000 population of reported cases and deaths are 1.7 (17th) and 0.016 (26th) respectively. The doubling times of reported cases and deaths over the last 7 days are 16.4 days (11th) and 30.7 days (16th).

# Democratic Republic of the Congo

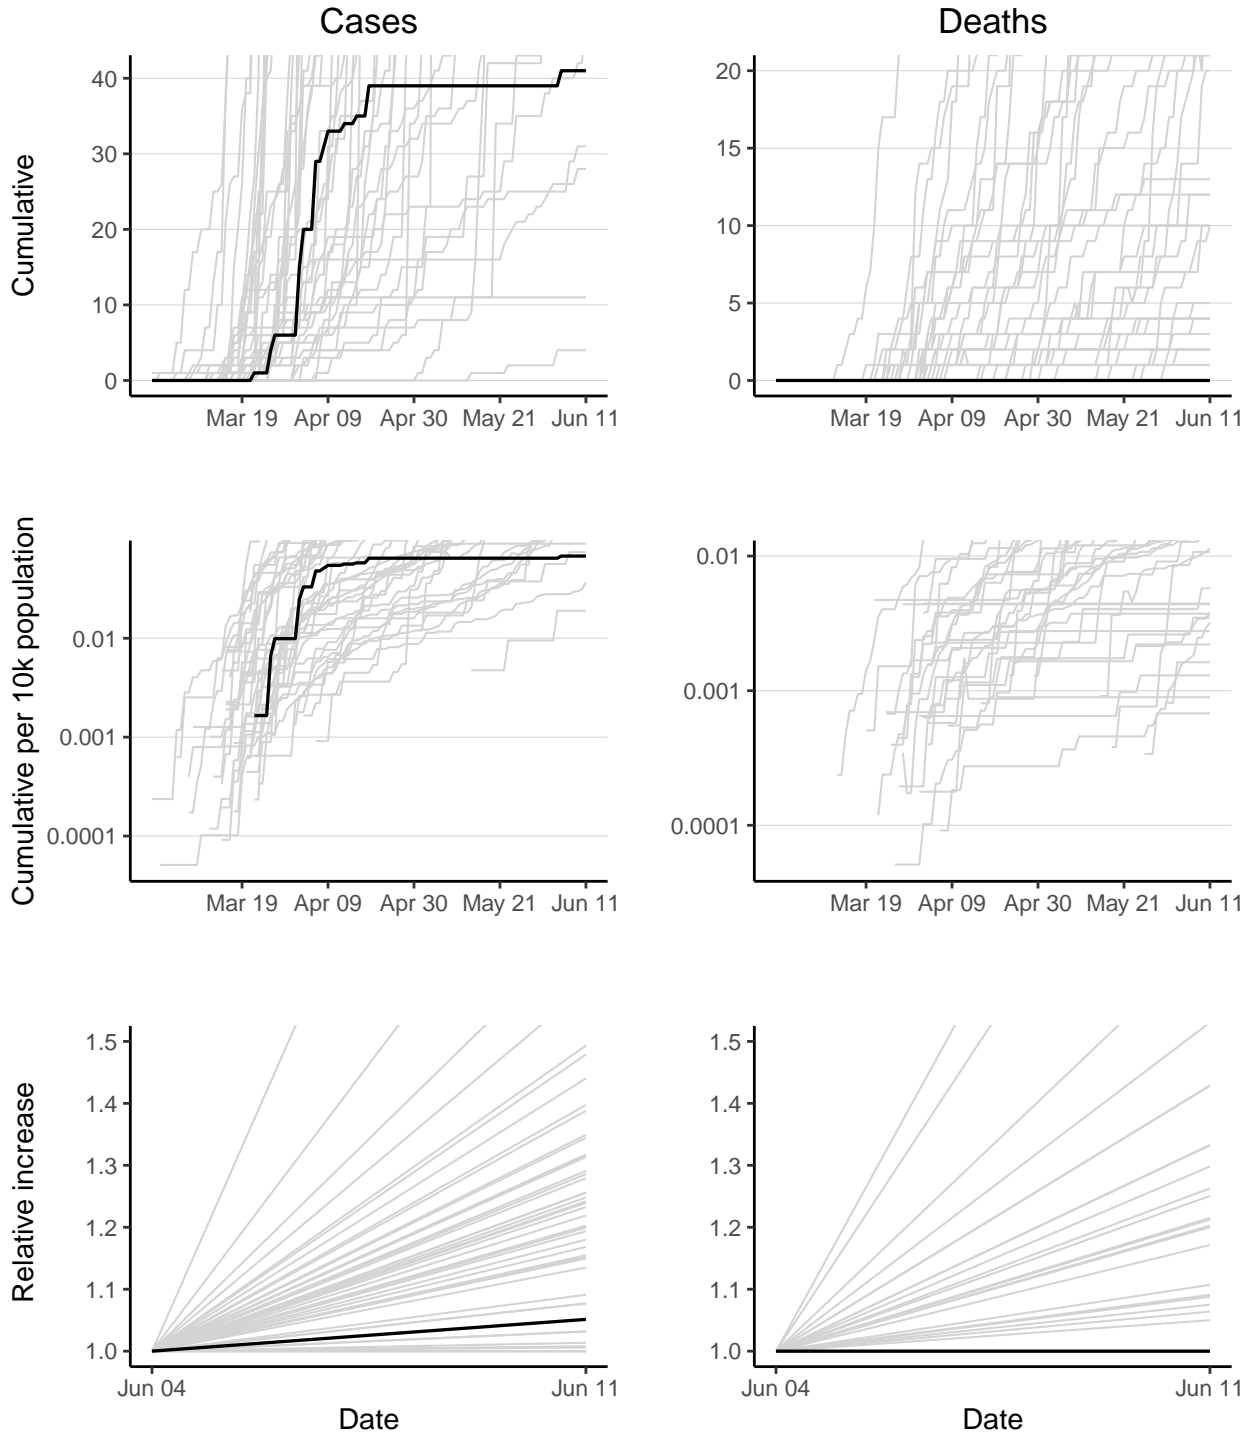

Democratic Republic of the Congo has 4389 reported case(s) (7th in the region) and 96 reported death(s) (5th). Cumulative counts per 10,000 population of reported cases and deaths are 0.52 (29th) and 0.011 (28th) respectively. The doubling times of reported cases and deaths over the last 7 days are 21.3 days (18th) and 18.6 days (9th).

# Equatorial Guinea

Equatorial Guinea has 1043 reported case(s) (21st in the region) and 12 reported death(s) (24th). Cumulative counts per 10,000 population of reported cases and deaths are 8 (5th) and 0.092 (7th) respectively. The doubling time of reported cases cannot be calculated as no new cases have been reported in last 7 days. The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Eritrea

Eritrea has 41 reported case(s) (43rd in the region) and 0 reported death(s) (43rd). Cumulative counts per 10,000 population of reported cases and deaths are 0.068 (45th) and 0 (43rd) respectively. The doubling time of reported cases over the last 7 days is 97 days (38th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

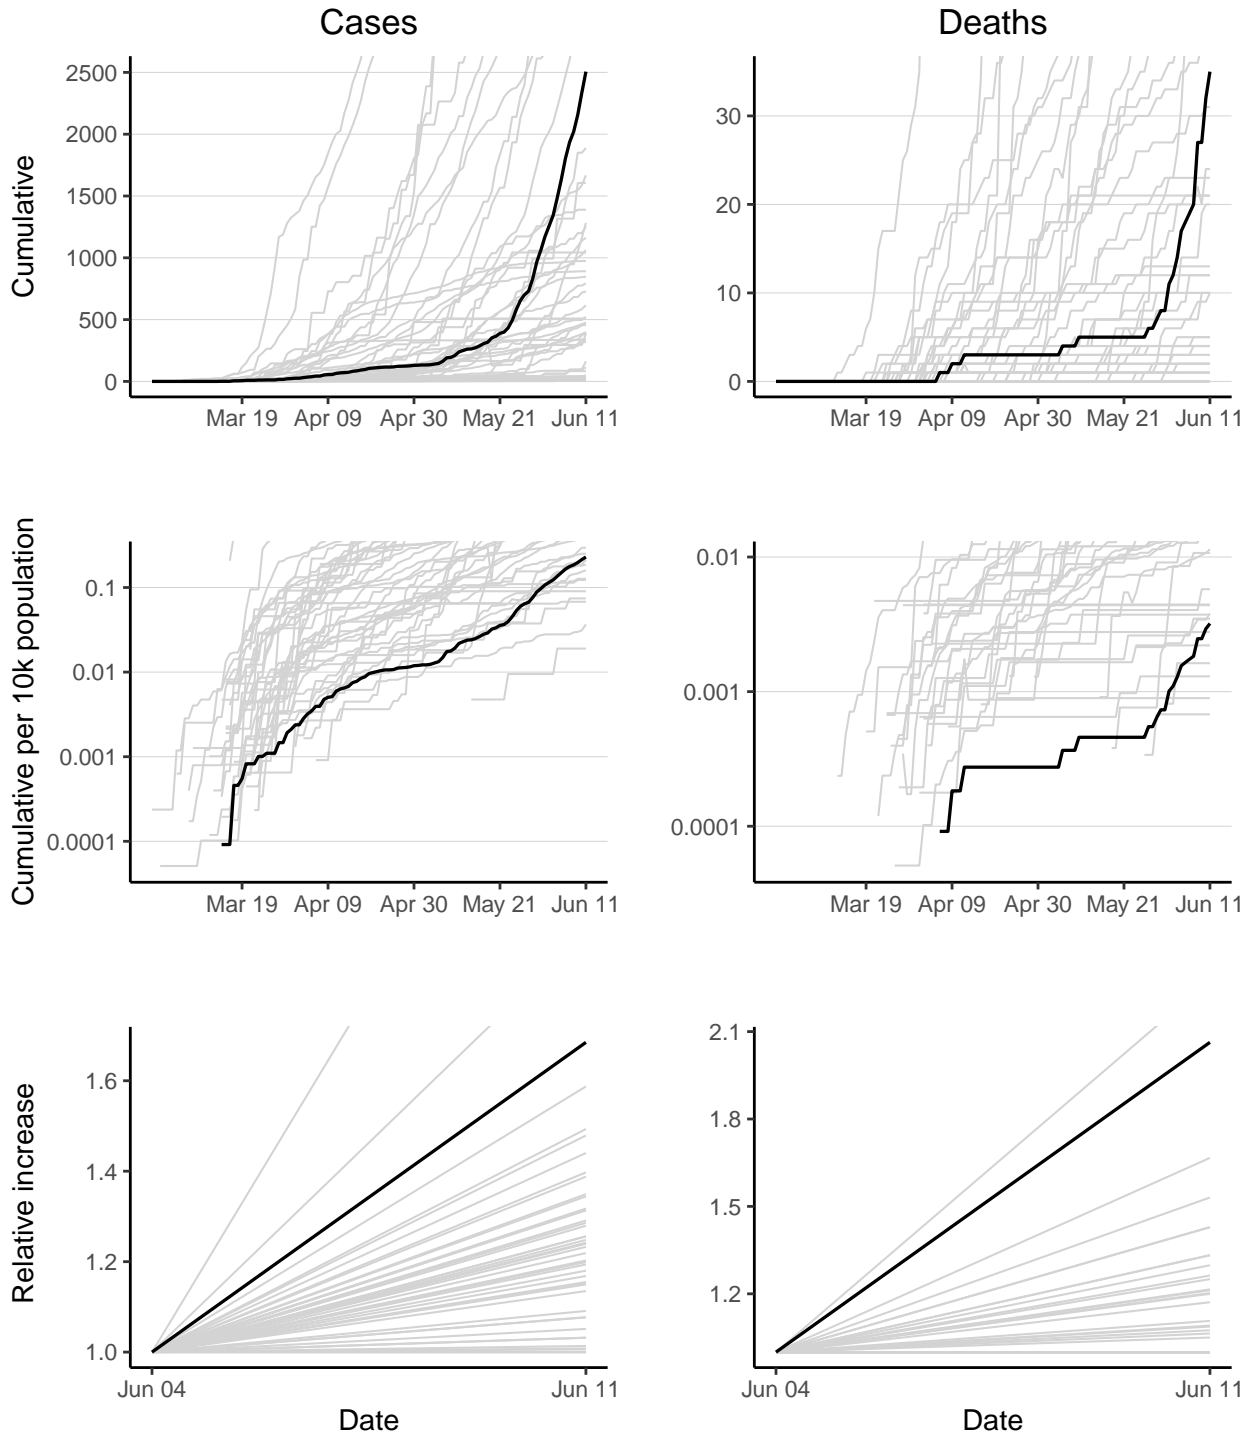

# Eswatini

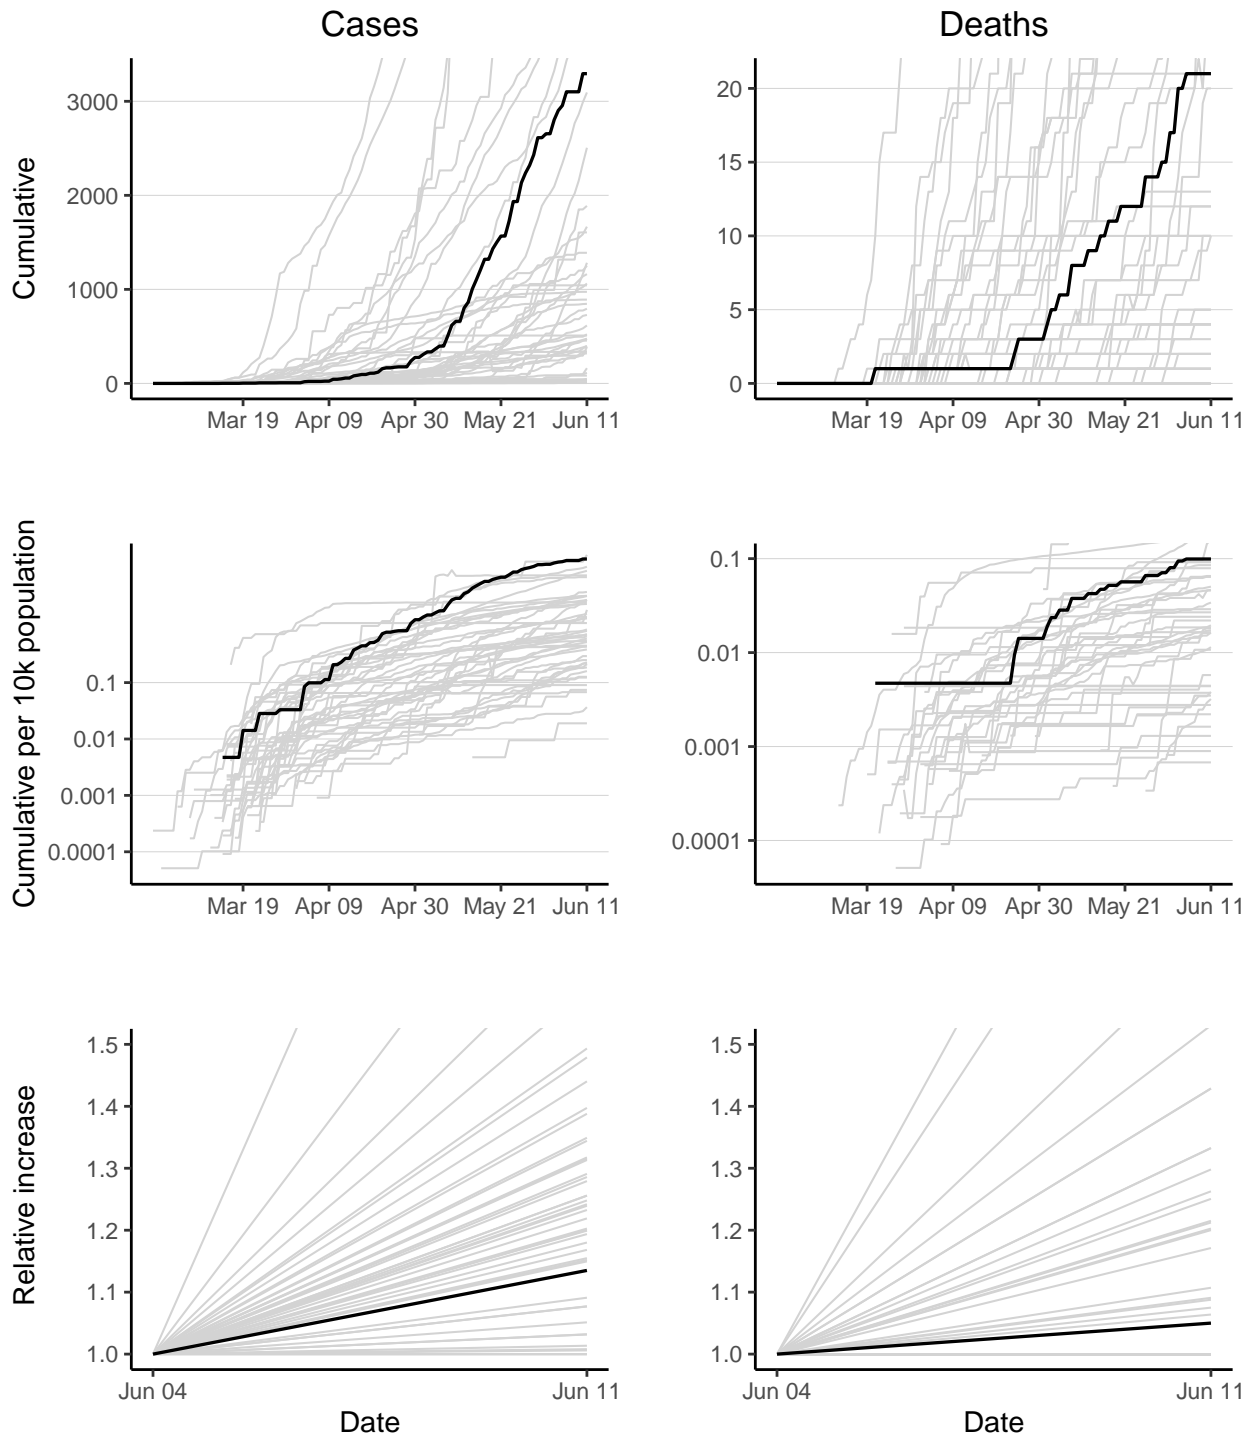

Eswatini has 398 reported case(s) (33rd in the region) and 3 reported death(s) (36th). Cumulative counts per 10,000 population of reported cases and deaths are 2.9 (13th) and 0.022 (20th) respectively. The doubling time of reported cases over the last 7 days is 16.2 days (10th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Ethiopia

Ethiopia has 2506 reported case(s) (12th in the region) and 35 reported death(s) (16th). Cumulative counts per 10,000 population of reported cases and deaths are 0.23 (36th) and 0.0032 (36th) respectively. The doubling times of reported cases and deaths over the last 7 days are 9.3 days (3rd) and 6.7 days (2nd).

# Gabon

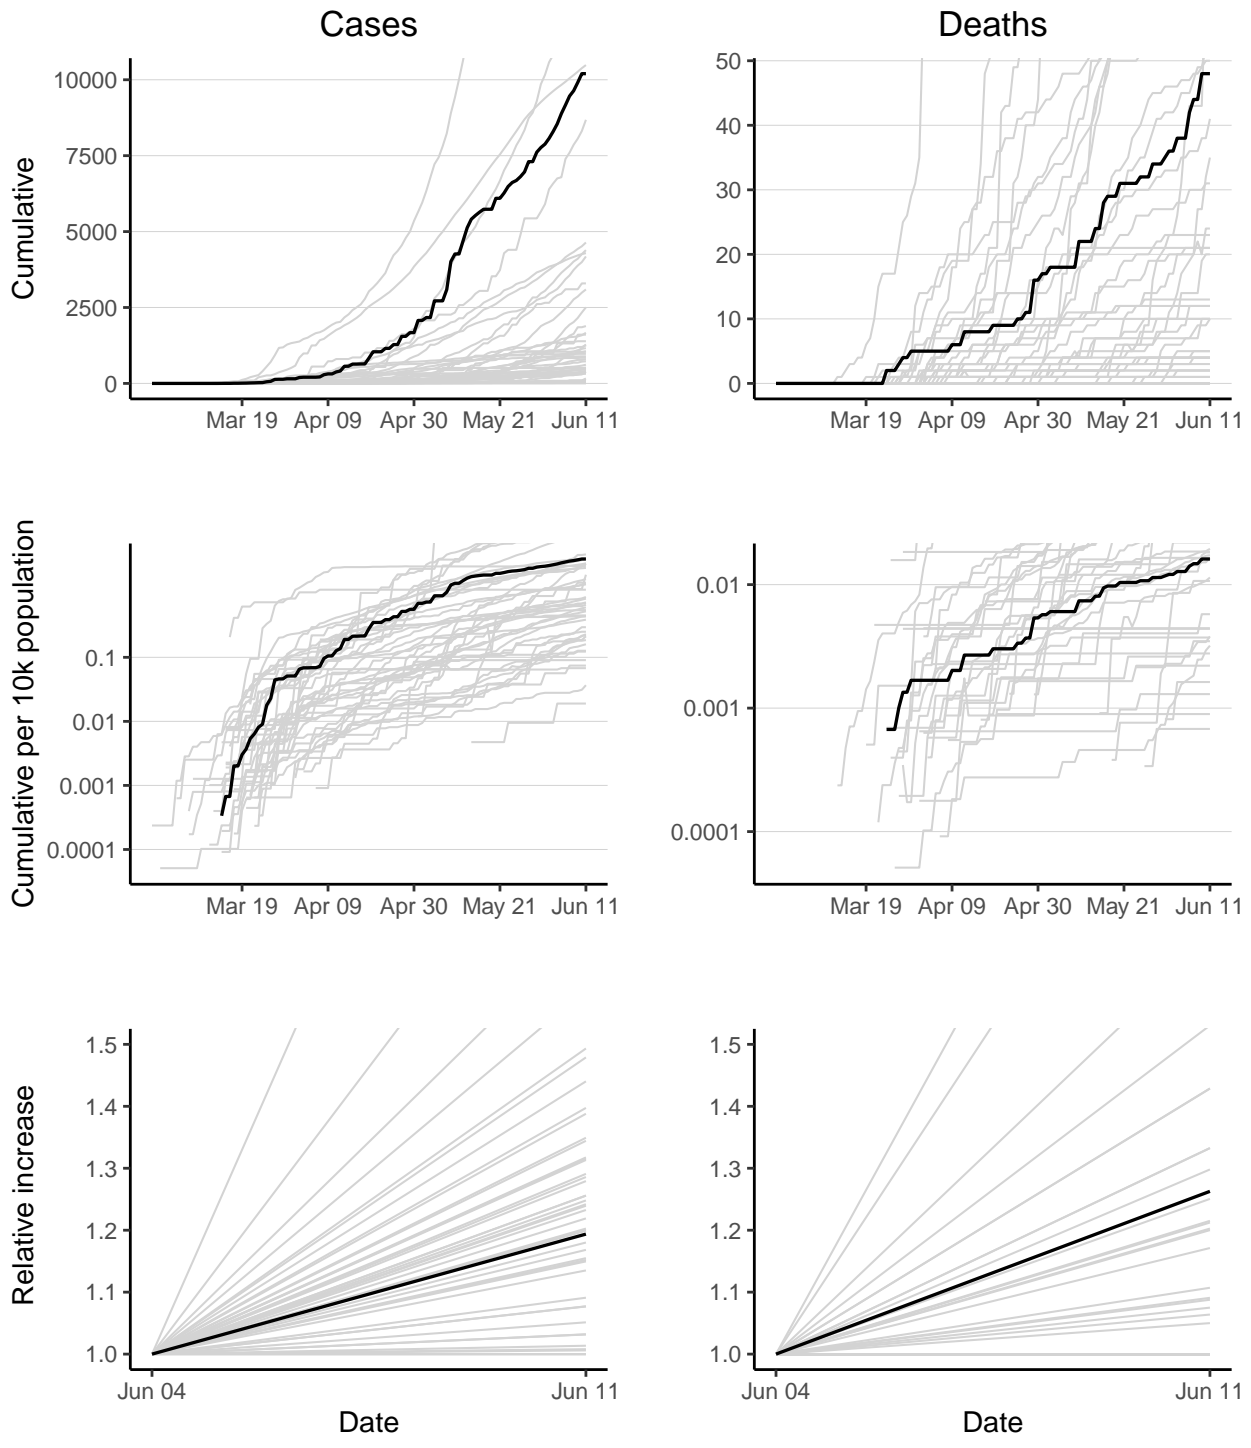

Gabon has 3294 reported case(s) (10th in the region) and 21 reported death(s) (20th). Cumulative counts per 10,000 population of reported cases and deaths are 16 (2nd) and 0.099 (5th) respectively. The doubling times of reported cases and deaths over the last 7 days are 38.3 days (34th) and 99.4 days (22nd).

# Gambia

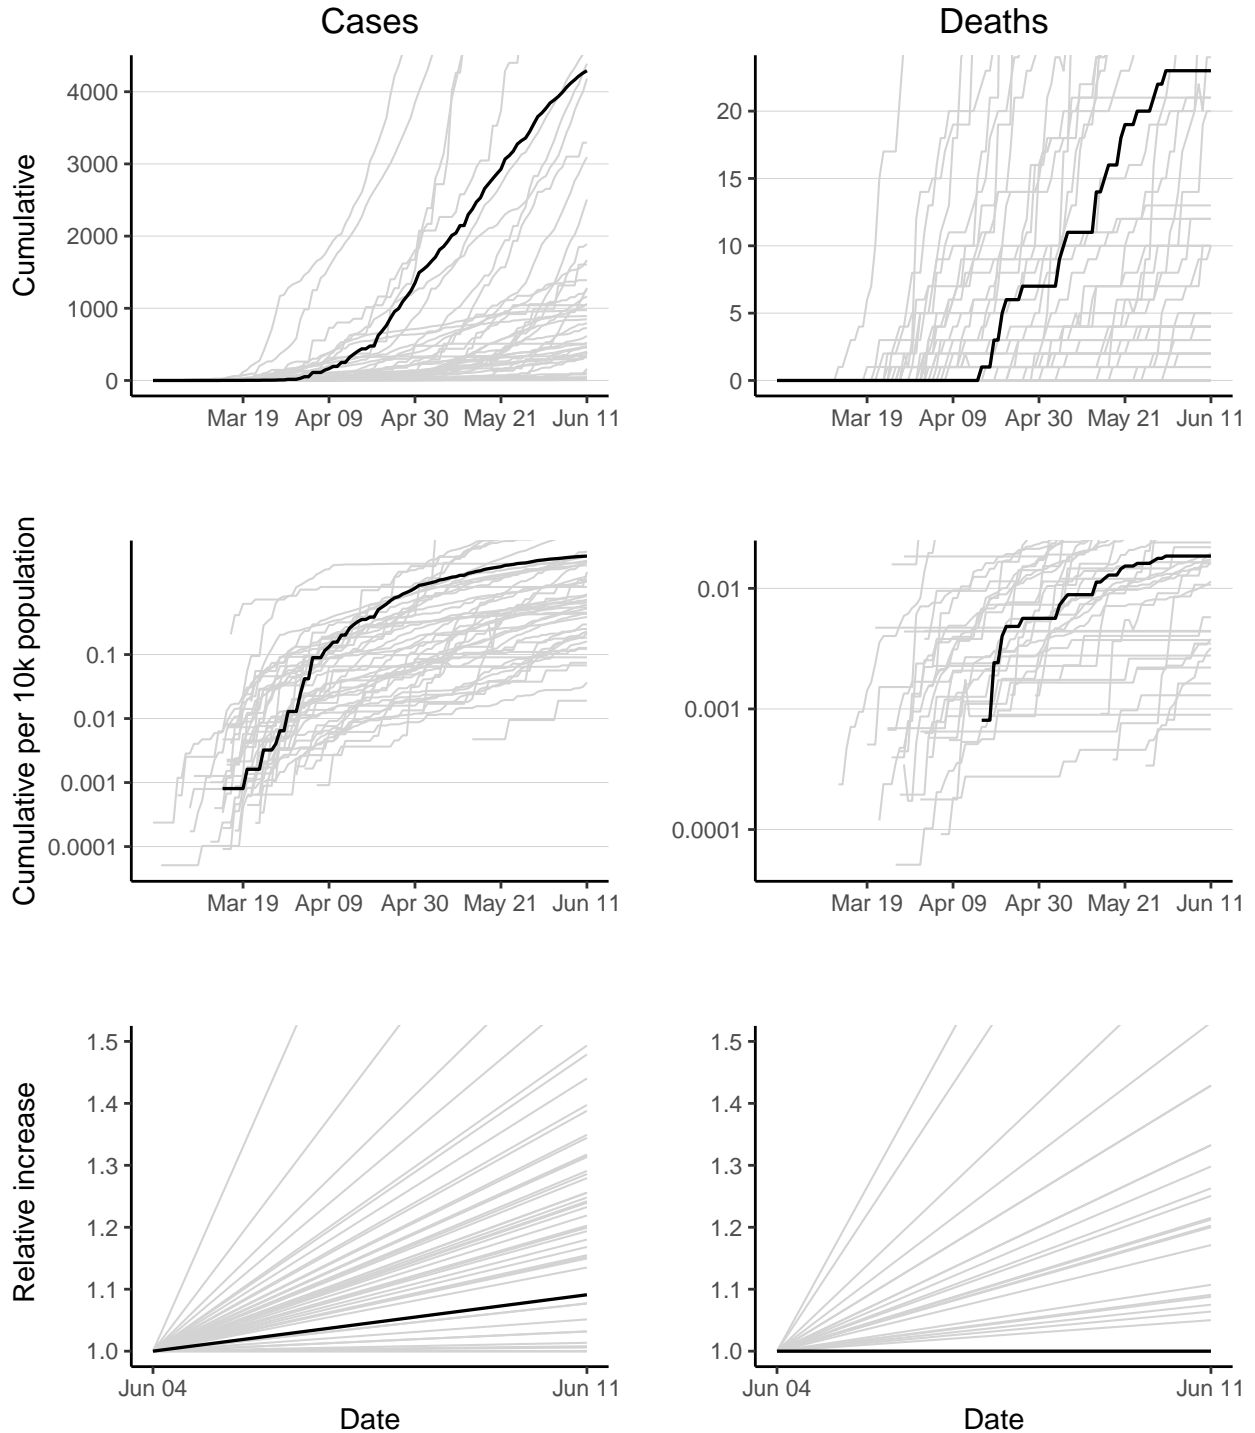

Gambia has 28 reported case(s) (45th in the region) and 1 reported death(s) (42nd). Cumulative counts per 10,000 population of reported cases and deaths are 0.12 (42nd) and 0.0044 (32nd) respectively. The doubling time of reported cases over the last 7 days is 65.5 days (37th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Ghana

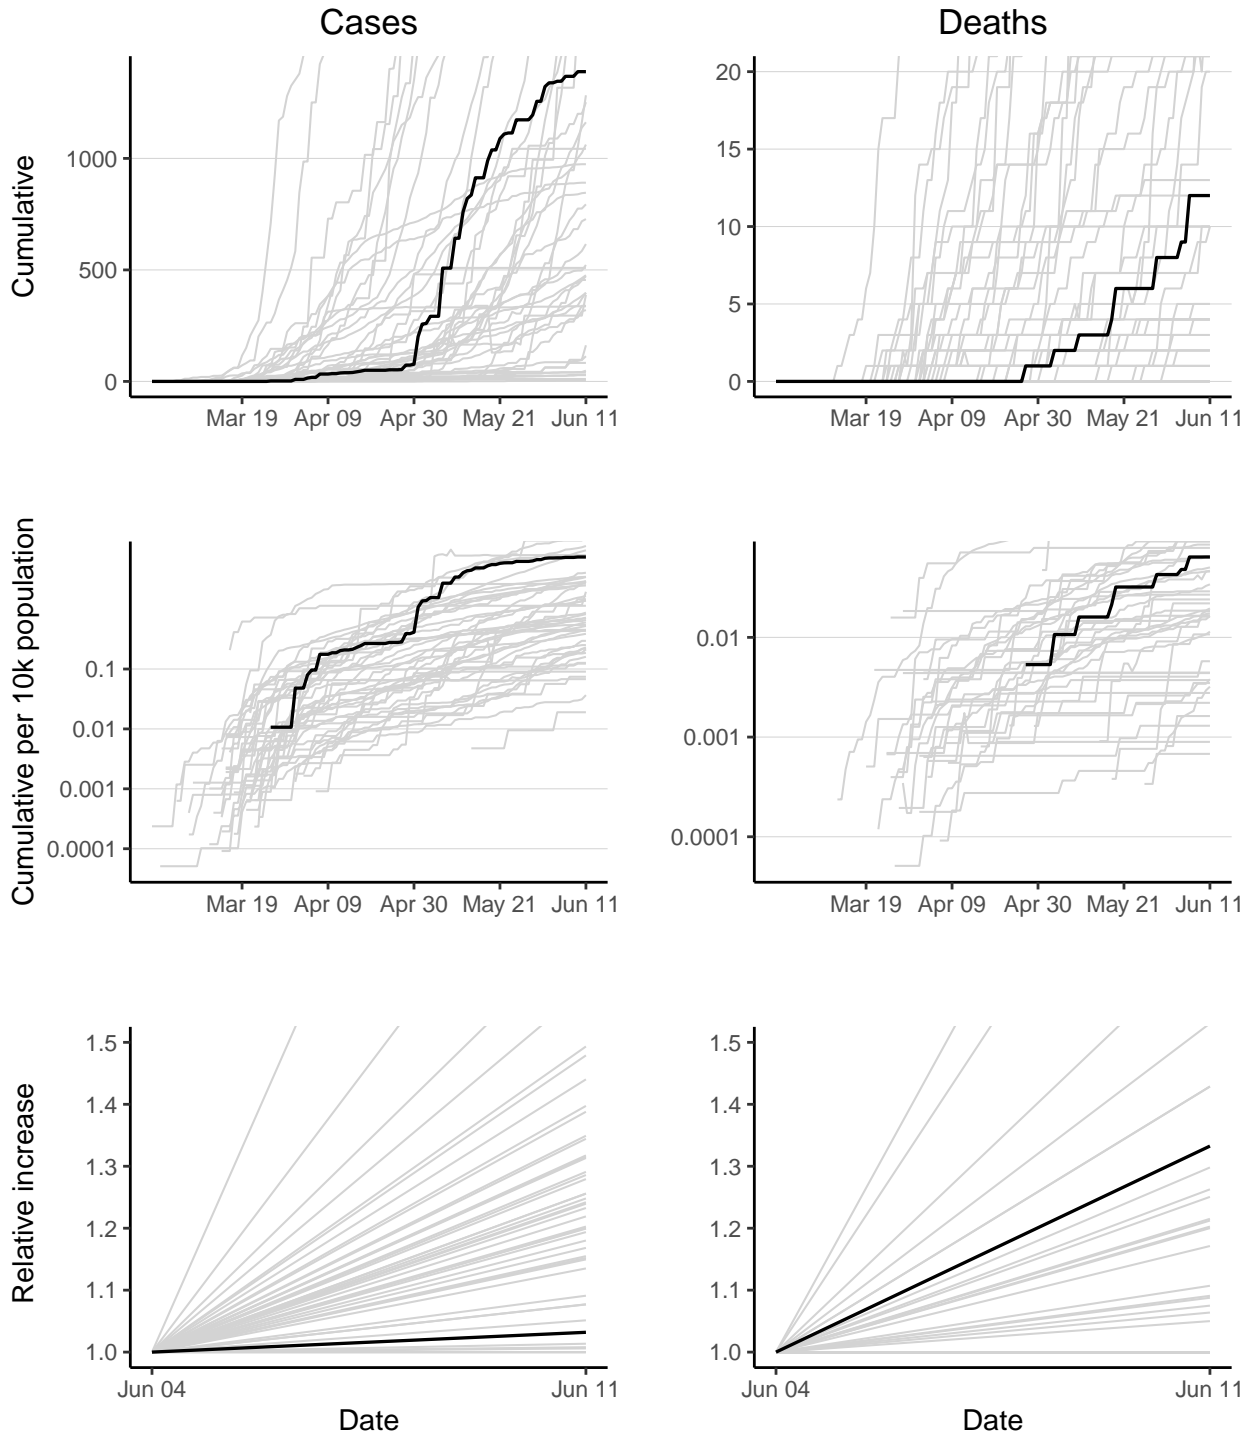

Ghana has 10201 reported case(s) (4th in the region) and 48 reported death(s) (14th). Cumulative counts per 10,000 population of reported cases and deaths are 3.4 (10th) and 0.016 (27th) respectively. The doubling times of reported cases and deaths over the last 7 days are 27.4 days (28th) and 20.8 days (10th).

# Guinea

Guinea has 4291 reported case(s) (8th in the region) and 23 reported death(s) (19th). Cumulative counts per 10,000 population of reported cases and deaths are 3.5 (8th) and 0.019 (22nd) respectively. The doubling time of reported cases over the last 7 days is 55.7 days (35th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Guinea-Bissau

Guinea-Bissau has 1389 reported case(s) (16th in the region) and 12 reported death(s) (25th). Cumulative counts per 10,000 population of reported cases and deaths are 7.4 (6th) and 0.064 (12th) respectively. The doubling times of reported cases and deaths over the last 7 days are 154.3 days (39th) and 16.9 days (8th).

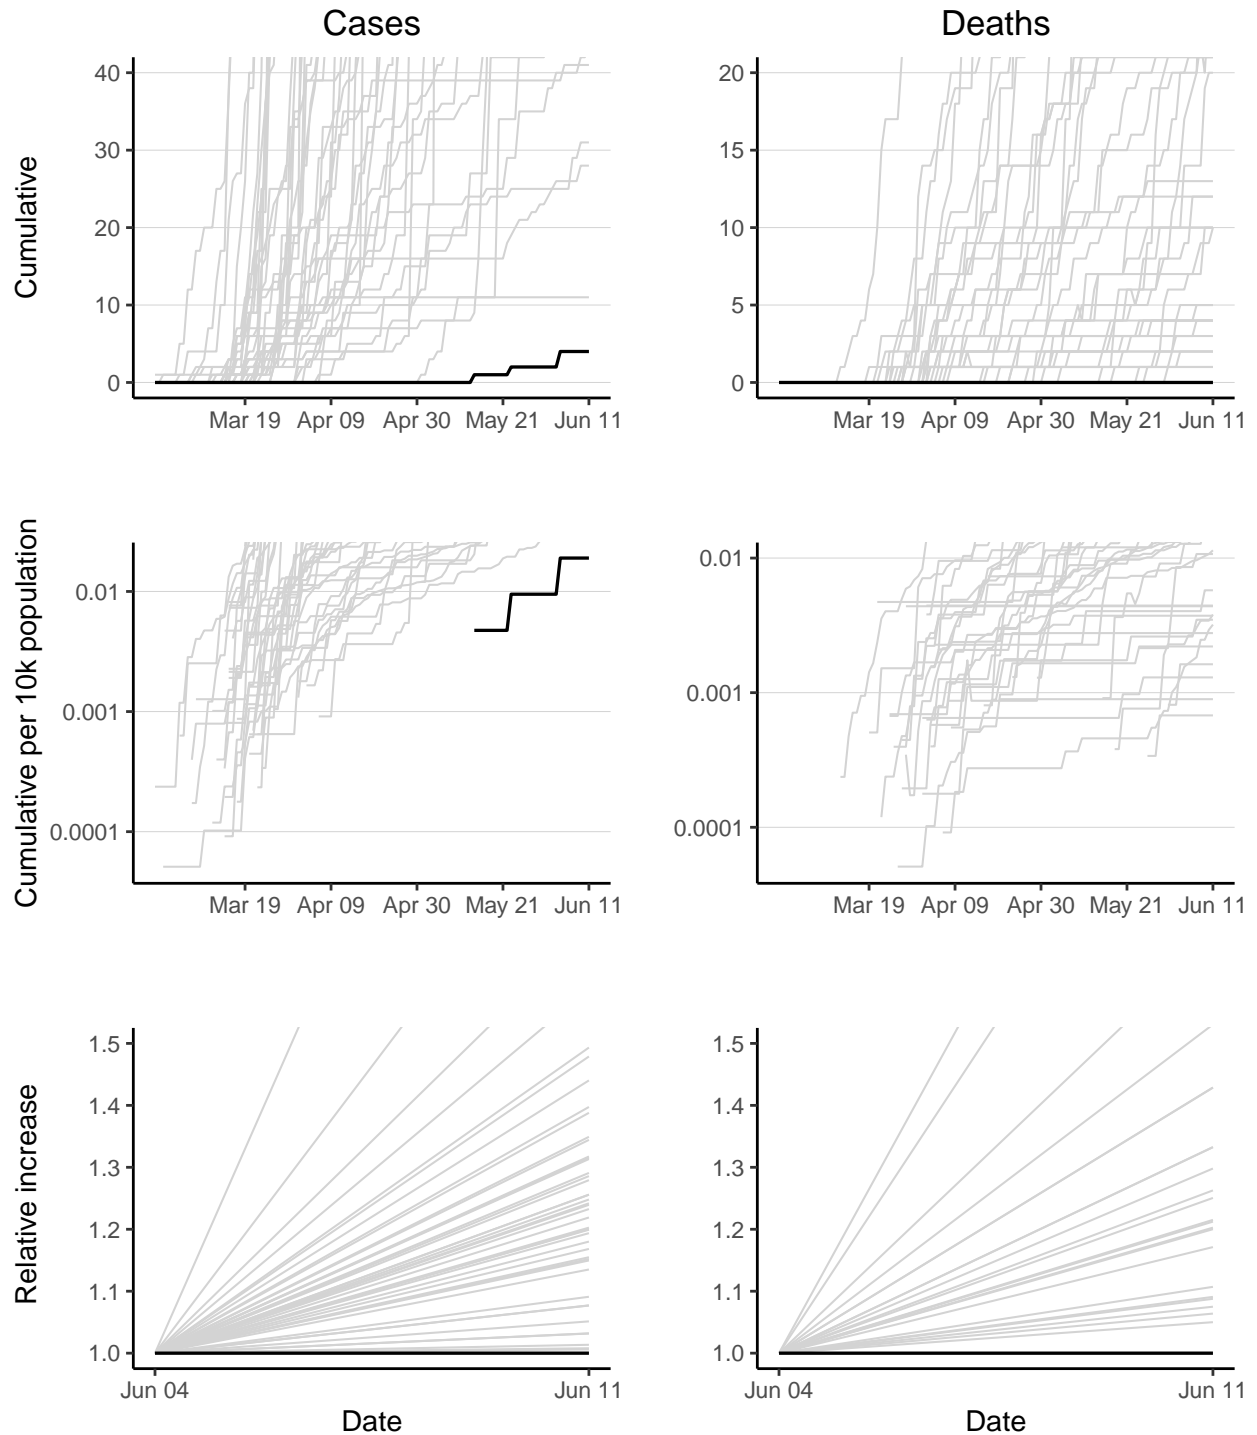

# Kenya

Kenya has 3094 reported case(s) (11th in the region) and 89 reported death(s) (7th). Cumulative counts per 10,000 population of reported cases and deaths are 0.6 (27th) and 0.017 (24th) respectively. The doubling times of reported cases and deaths over the last 7 days are 14.5 days (8th) and 26.3 days (14th).

# Lesotho

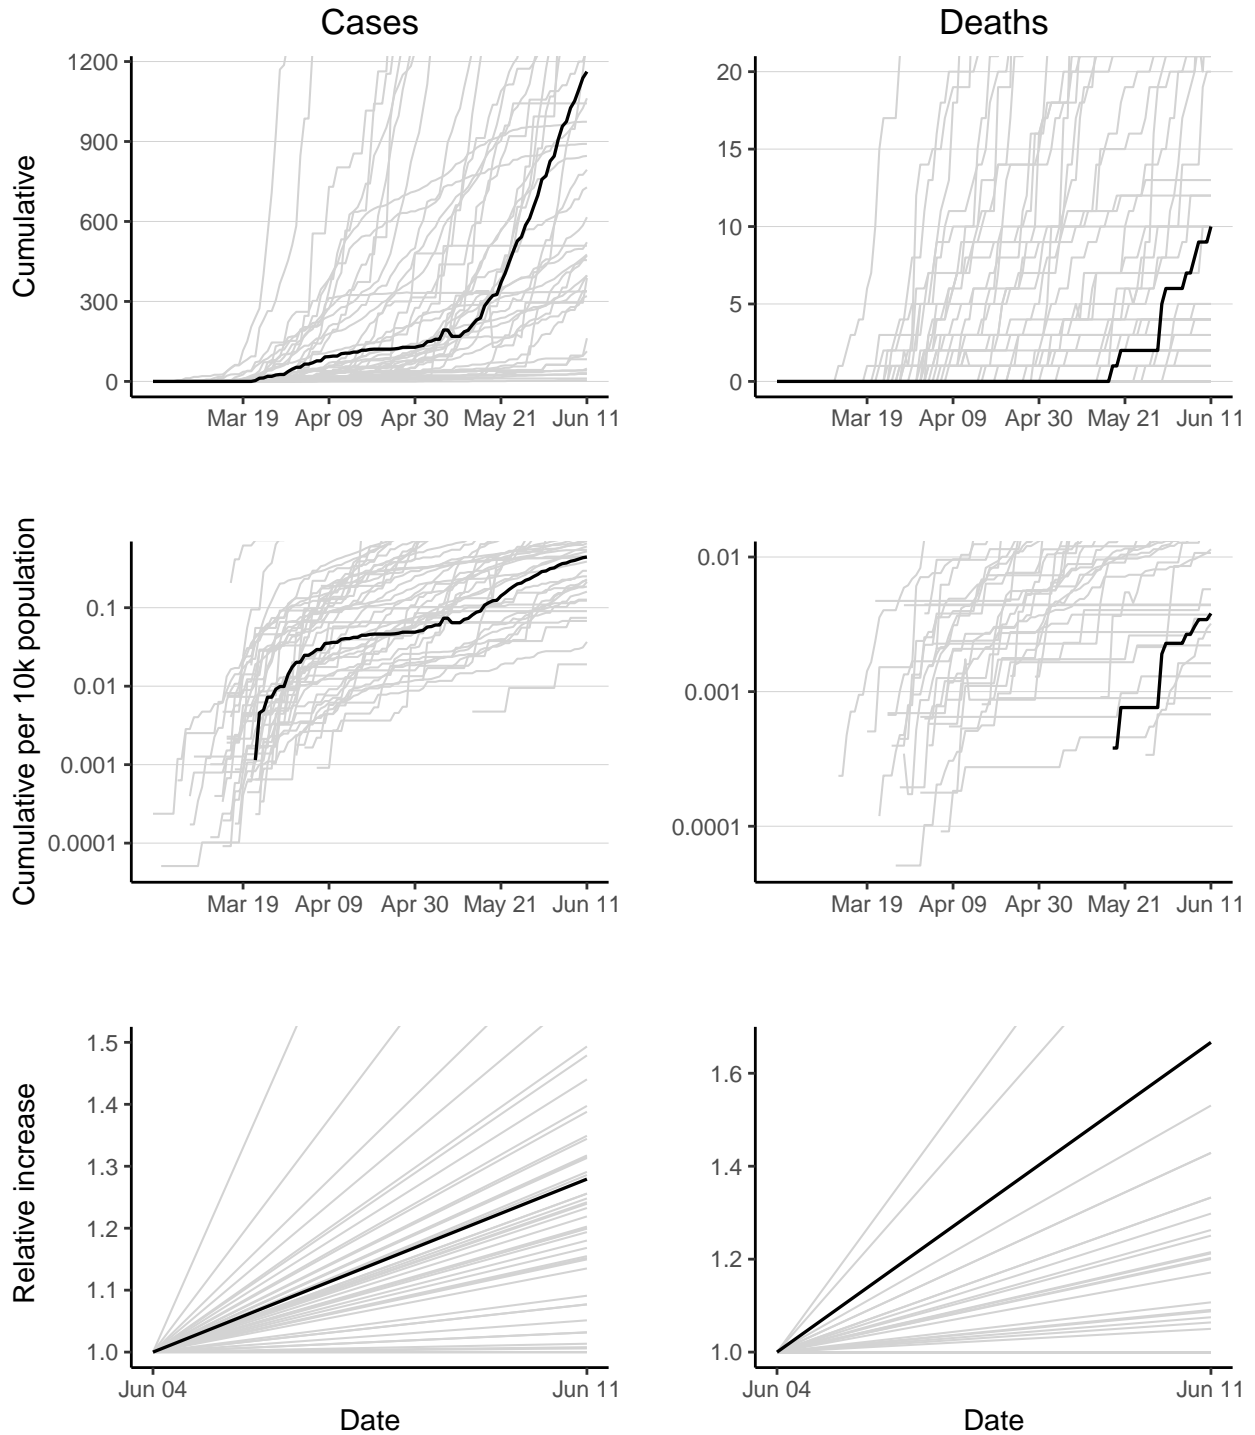

Lesotho has 4 reported case(s) (47th in the region) and 0 reported death(s) (44th). Cumulative counts per 10,000 population of reported cases and deaths are 0.019 (47th) and 0 (44th) respectively. The doubling time of reported cases cannot be calculated as no new cases have been reported in last 7 days. The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Liberia

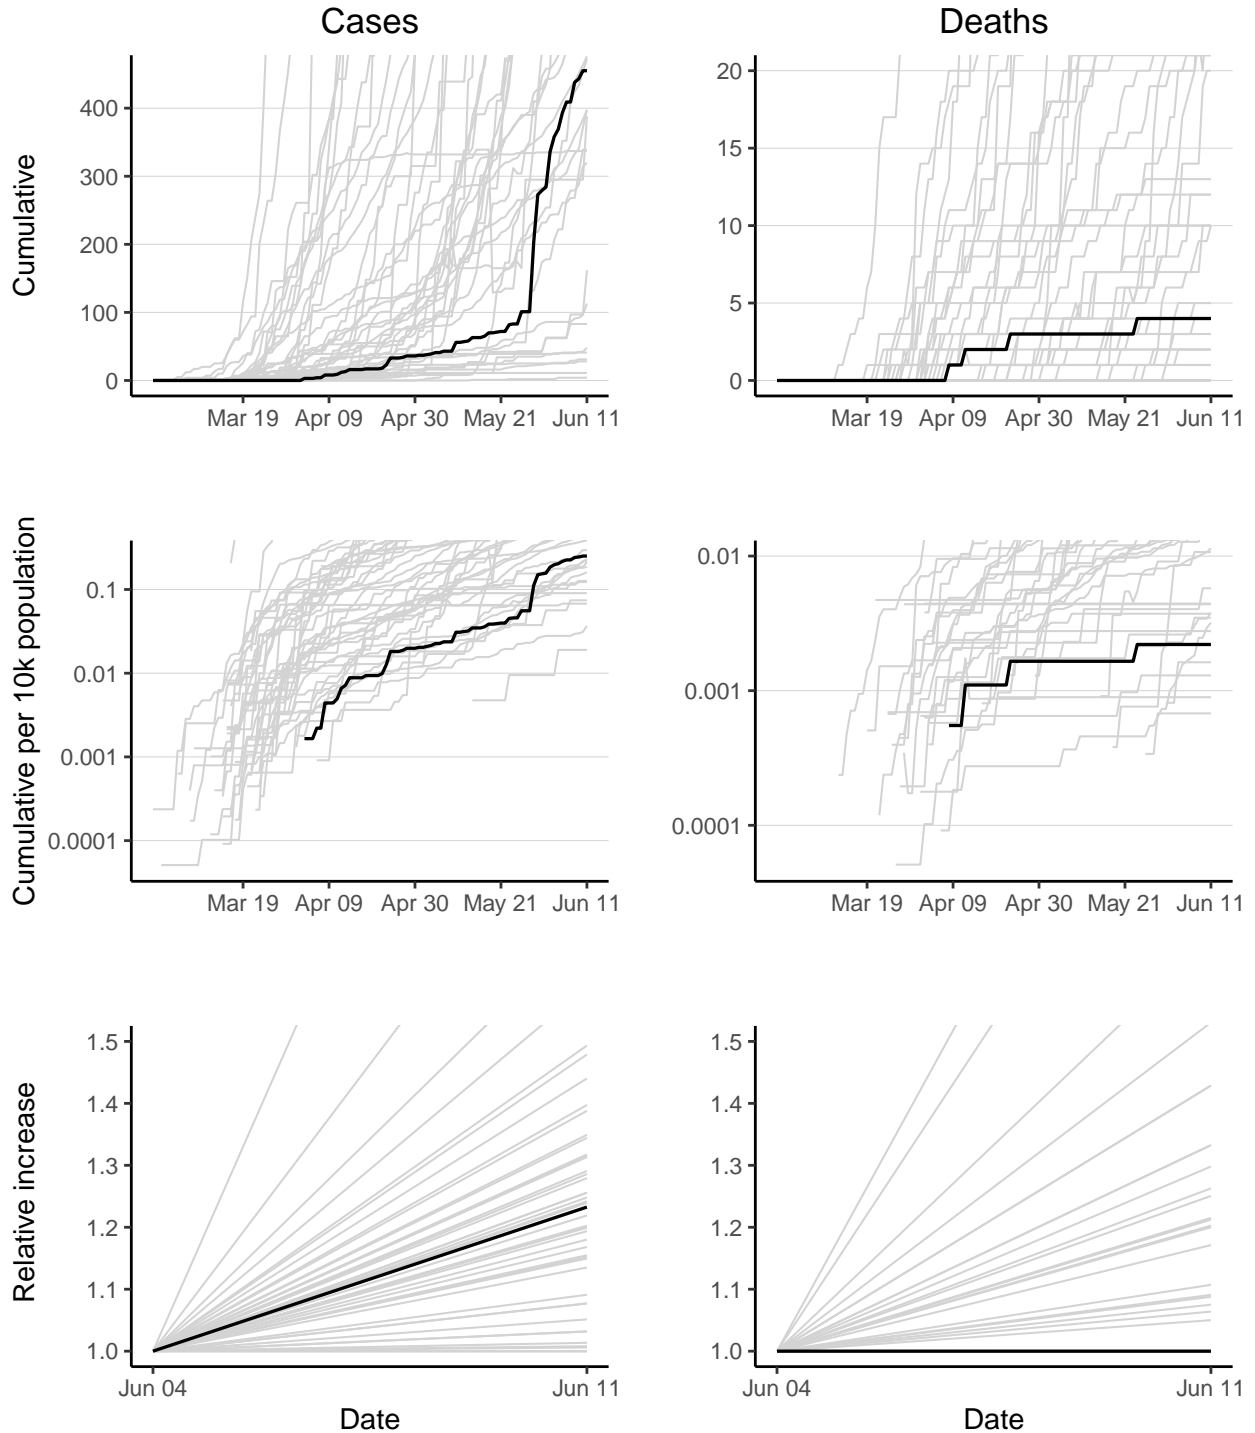

Liberia has 397 reported case(s) (34th in the region) and 31 reported death(s) (17th). Cumulative counts per 10,000 population of reported cases and deaths are 0.82 (23rd) and 0.064 (11th) respectively. The doubling times of reported cases and deaths over the last 7 days are 21.3 days (19th) and 47.7 days (17th).

# Madagascar

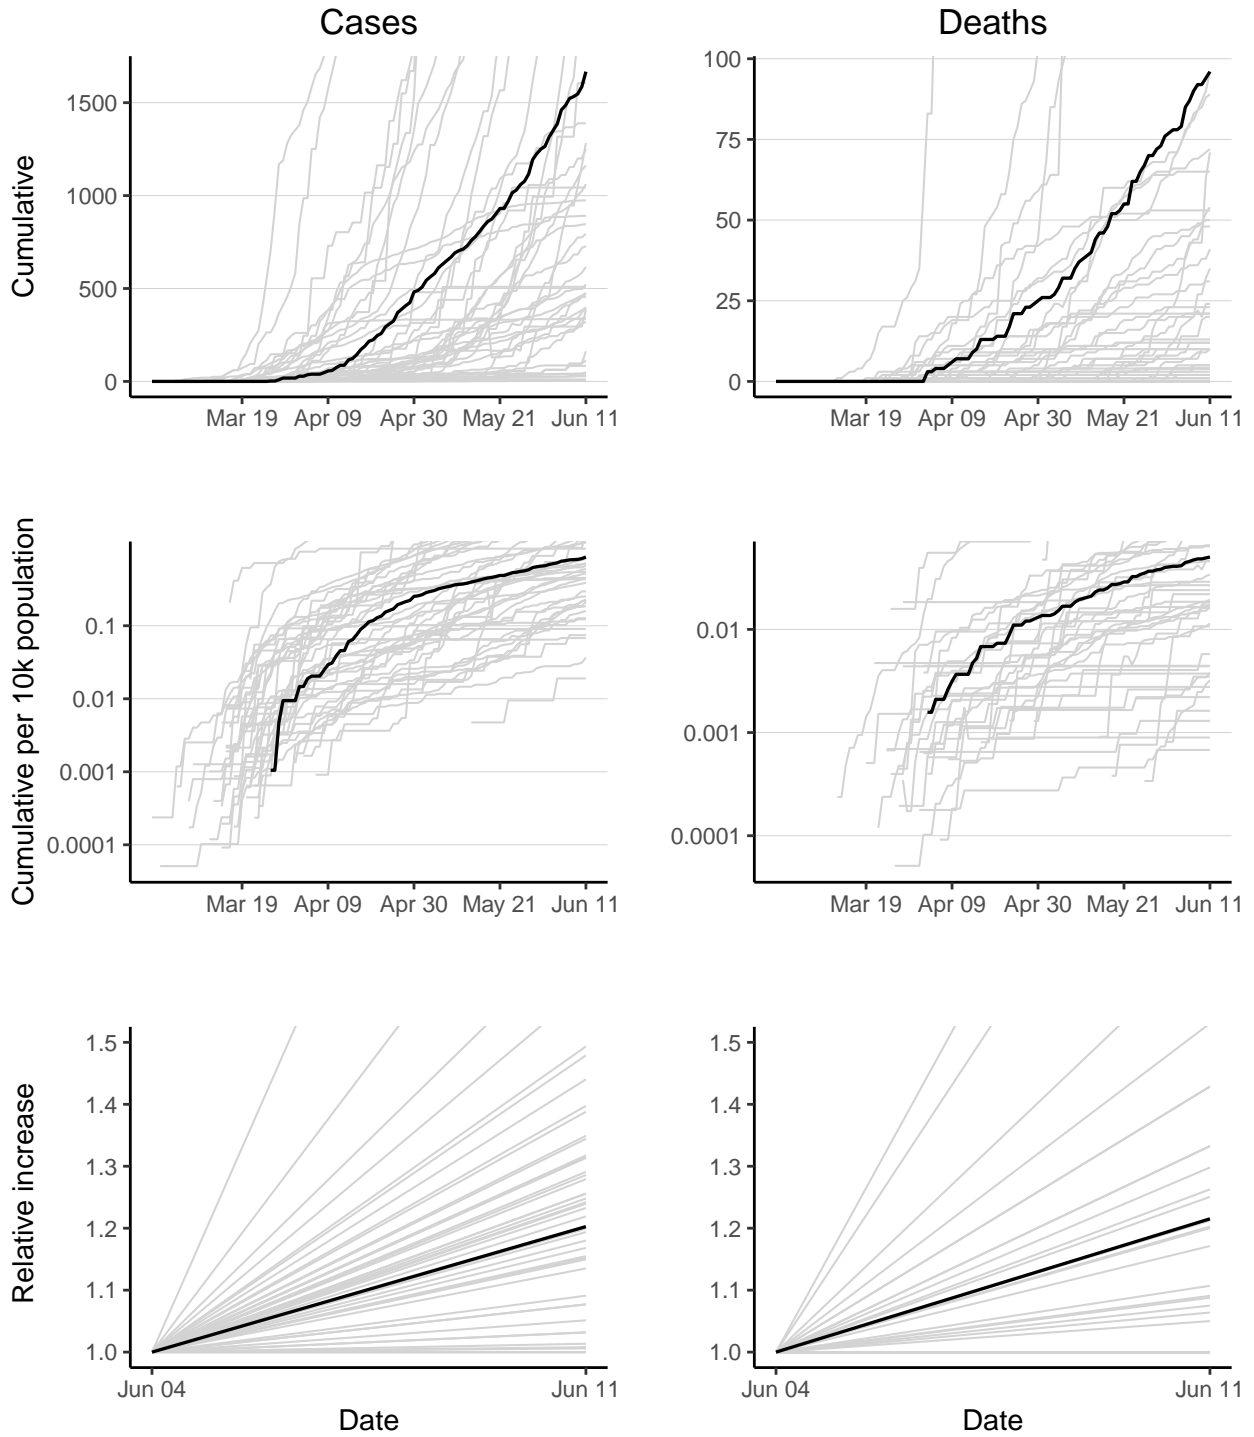

Madagascar has 1162 reported case(s) (19th in the region) and 10 reported death(s) (26th). Cumulative counts per 10,000 population of reported cases and deaths are 0.44 (31st) and 0.0038 (33rd) respectively. The doubling times of reported cases and deaths over the last 7 days are 19.7 days (17th) and 9.5 days (3rd).

# Malawi

Malawi has 455 reported case(s) (32nd in the region) and 4 reported death(s) (34th). Cumulative counts per 10,000 population of reported cases and deaths are 0.025 (35th) and 0.00022 (38th) respectively. The doubling time of reported cases over the last 7 days is 23.2 days (23rd). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Mali

Mali has 1667 reported case(s) (14th in the region) and 96 reported death(s) (6th). Cumulative counts per 10,000 population of reported cases and deaths are 0.87 (22nd) and 0.05 (13th) respectively. The doubling times of reported cases and deaths over the last 7 days are 26.3 days (25th) and 24.9 days (12th).

# Mauritania

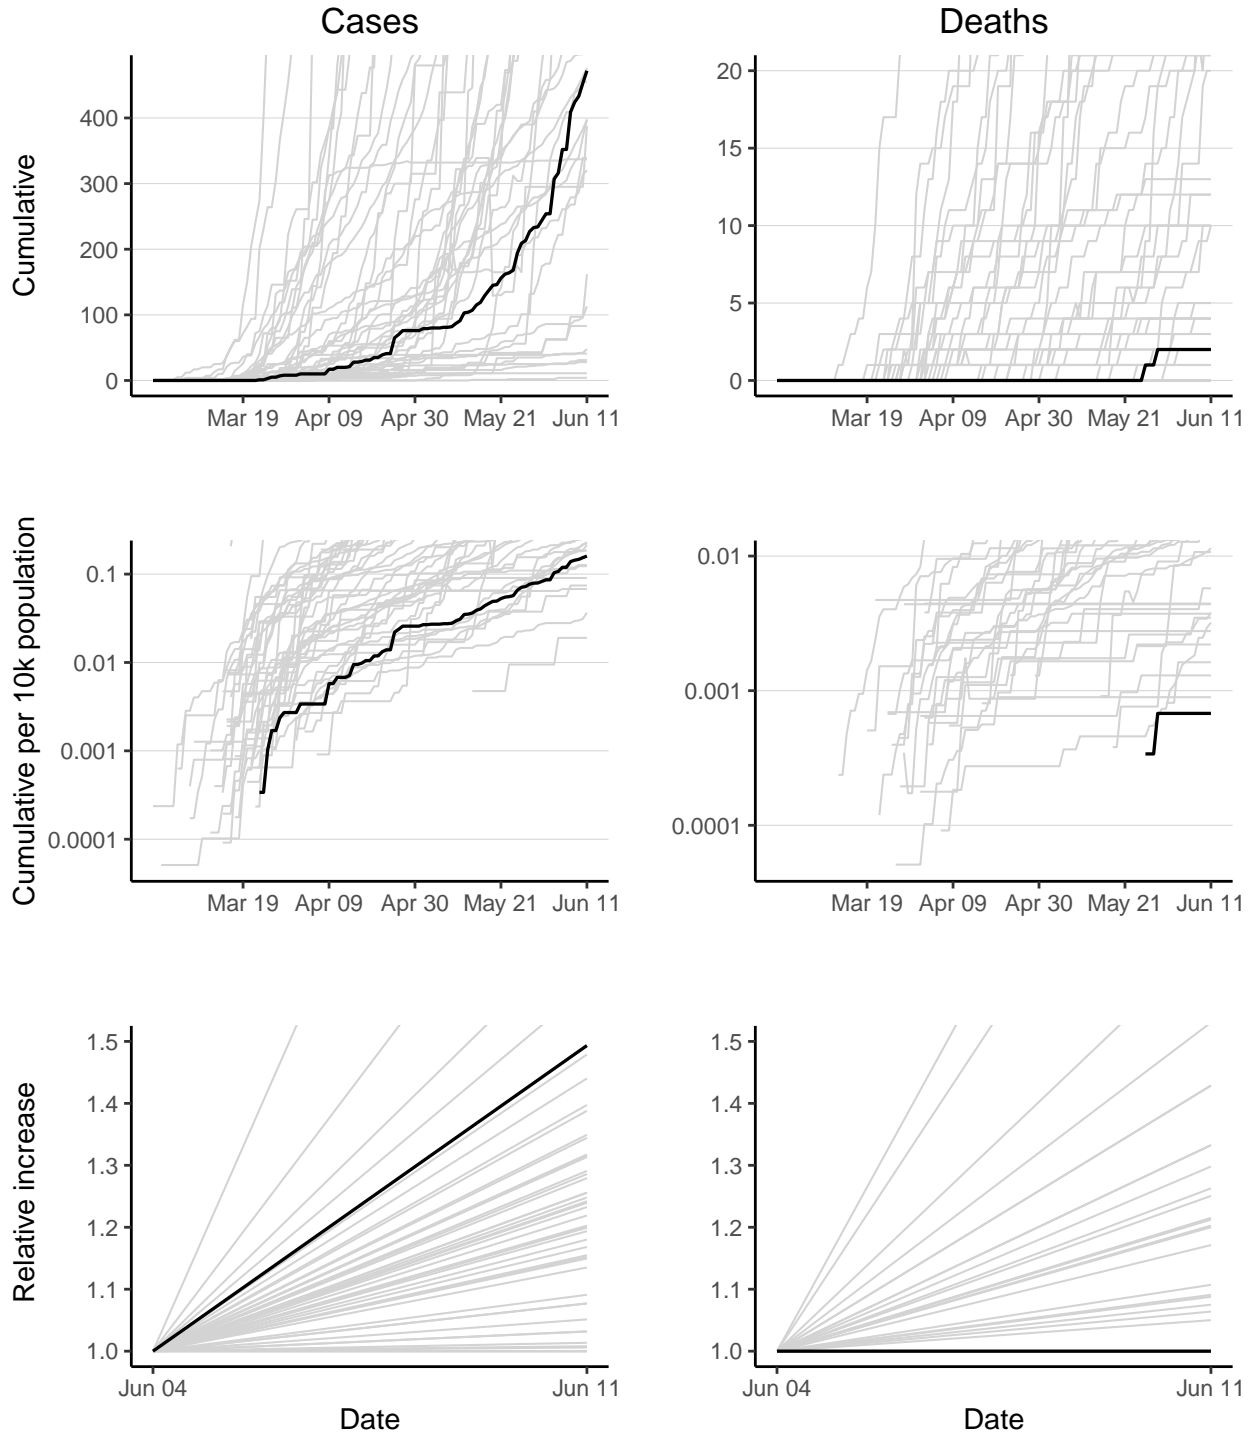

Mauritania has 1283 reported case(s) (17th in the region) and 71 reported death(s) (9th). Cumulative counts per 10,000 population of reported cases and deaths are 2.9 (12th) and 0.16 (4th) respectively. The doubling times of reported cases and deaths over the last 7 days are 7.4 days (2nd) and 5.9 days (1st).

# Mauritius

Mauritius has 337 reported case(s) (37th in the region) and 10 reported death(s) (27th). Cumulative counts per 10,000 population of reported cases and deaths are 2.7 (14th) and 0.079 (9th) respectively. The doubling time of reported cases over the last 7 days is 815.1 days (43rd). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

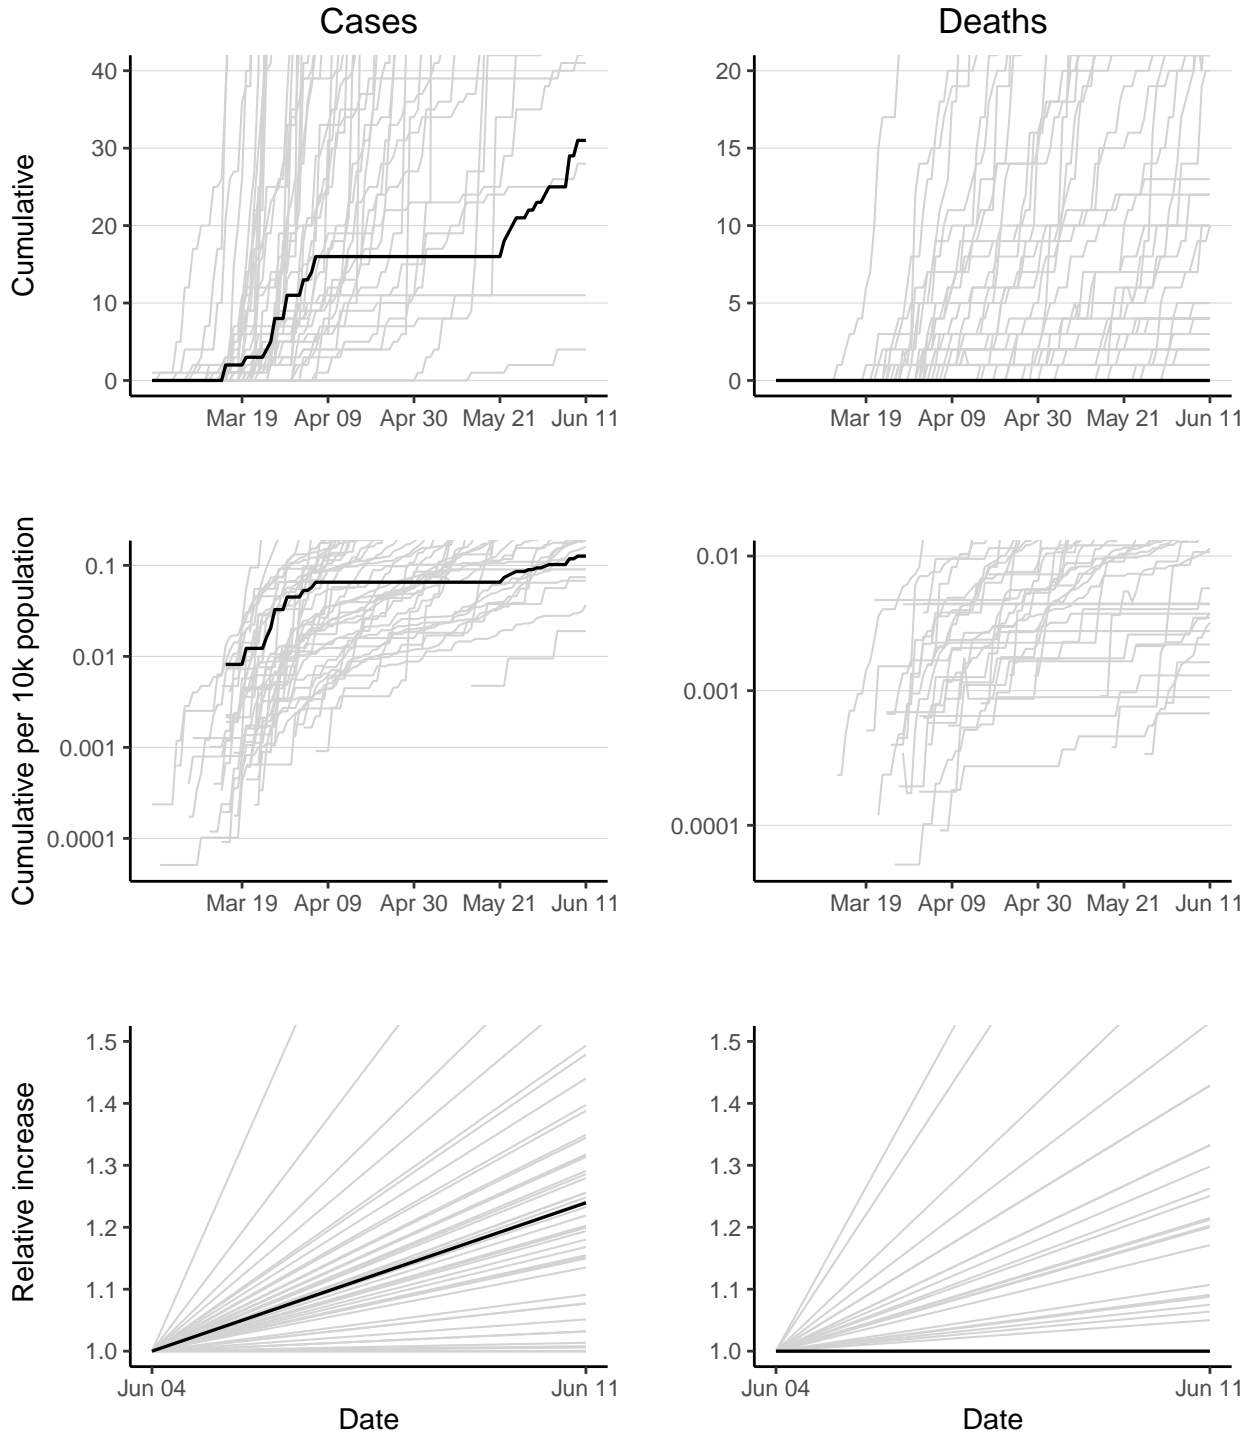

# Mozambique

Mozambique has 472 reported case(s) (31st in the region) and 2 reported death(s) (38th). Cumulative counts per 10,000 population of reported cases and deaths are 0.16 (40th) and 0.00068 (42nd) respectively. The doubling time of reported cases over the last 7 days is 12.1 days (5th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Namibia

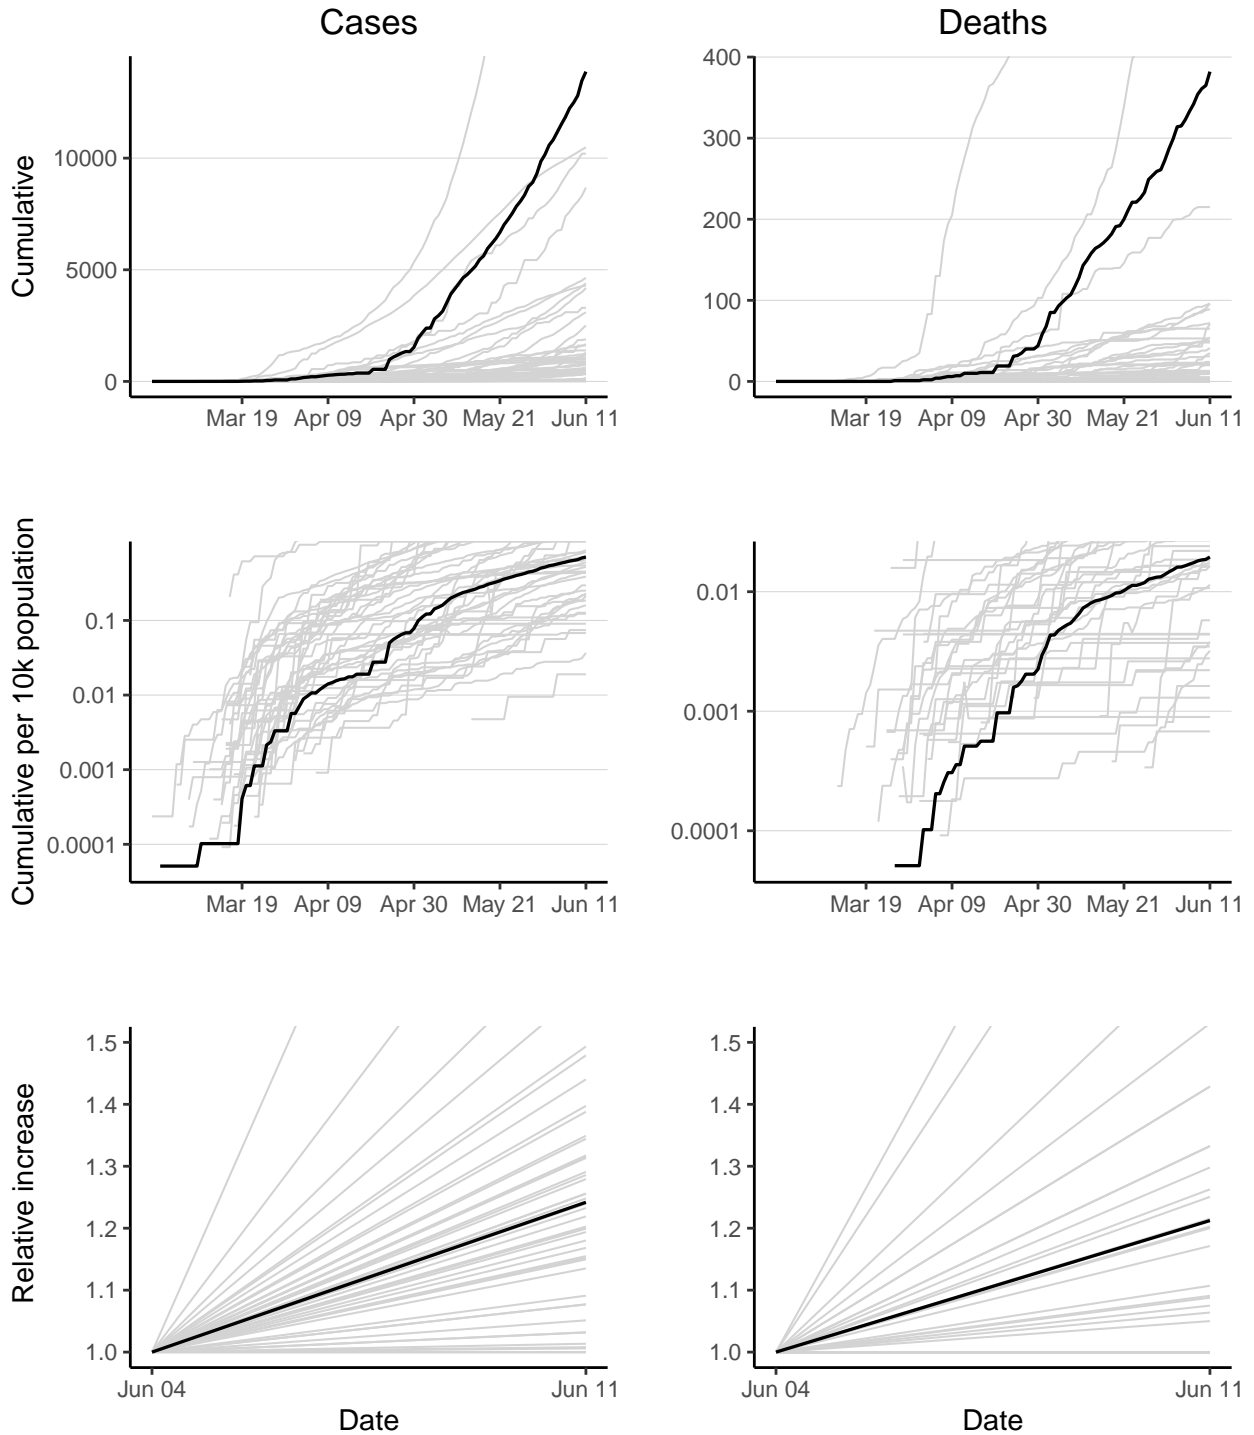

Namibia has 31 reported case(s) (44th in the region) and 0 reported death(s) (45th). Cumulative counts per 10,000 population of reported cases and deaths are 0.13 (41st) and 0 (45th) respectively. The doubling time of reported cases over the last 7 days is 22.6 days (22nd). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Niger

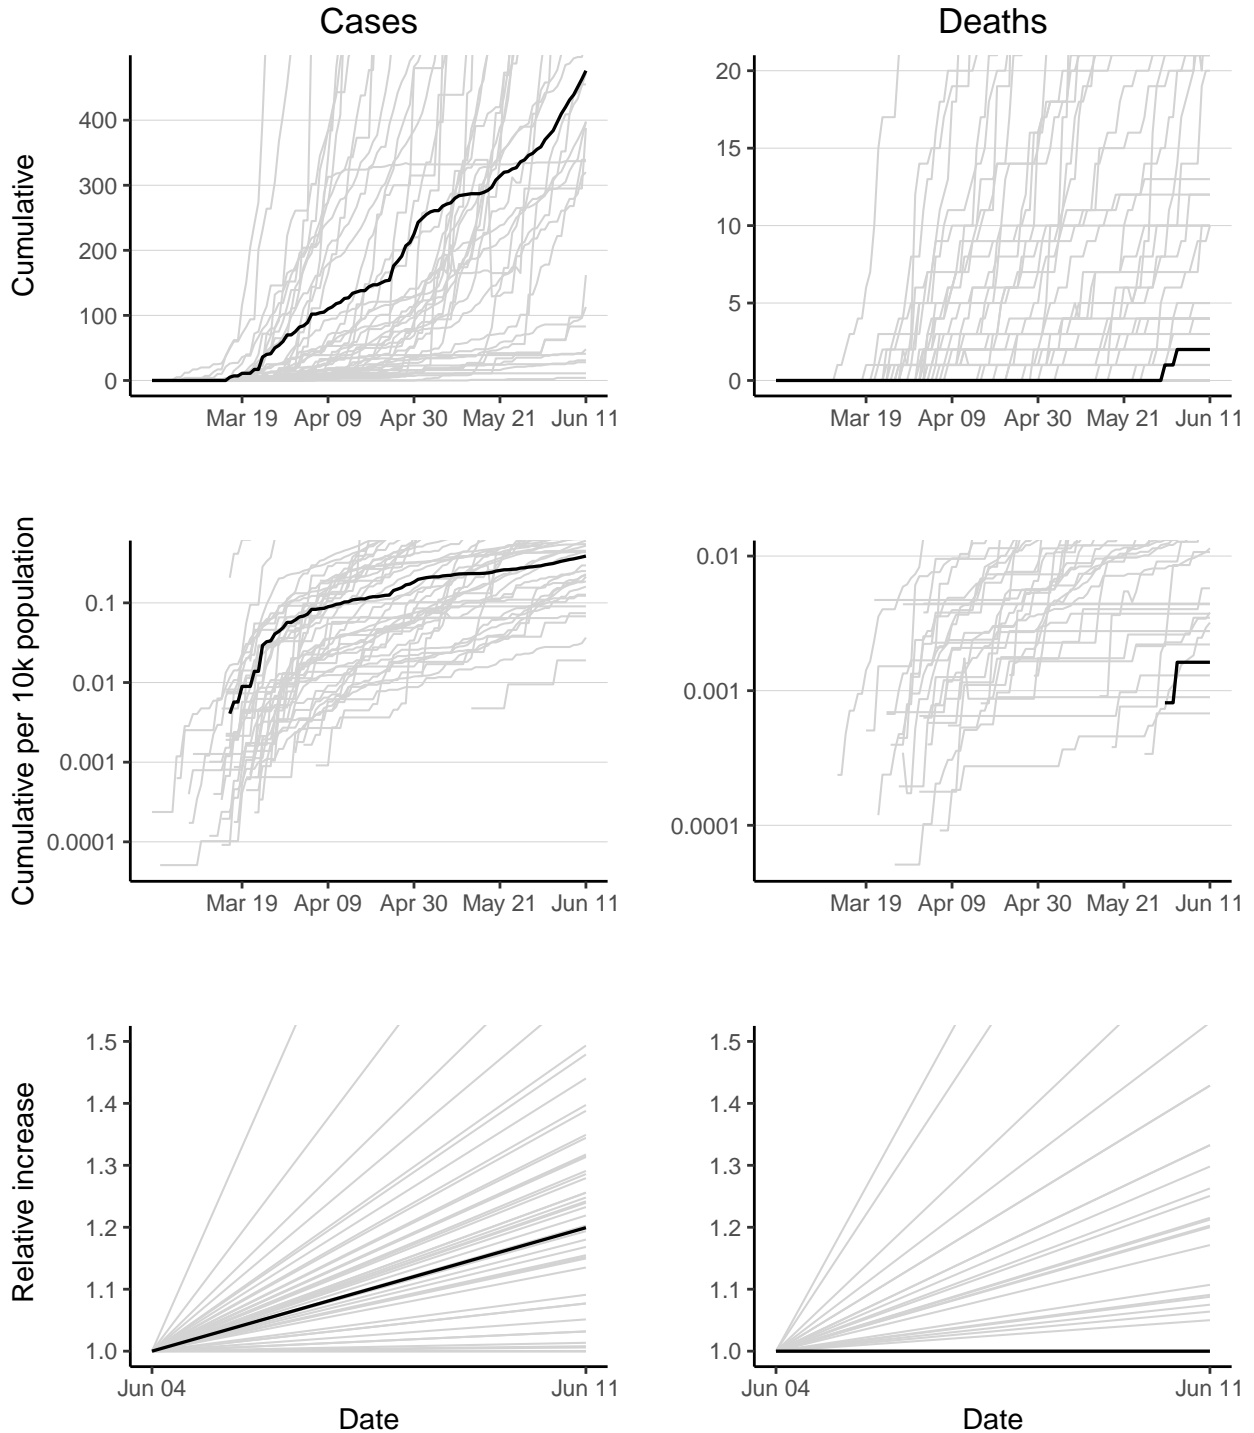

Niger has 974 reported case(s) (22nd in the region) and 65 reported death(s) (10th). Cumulative counts per 10,000 population of reported cases and deaths are 0.43 (32nd) and 0.029 (17th) respectively. The doubling time of reported cases over the last 7 days is 361.1 days (41st). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Nigeria

Nigeria has 13873 reported case(s) (2nd in the region) and 382 reported death(s) (3rd). Cumulative counts per 10,000 population of reported cases and deaths are 0.71 (25th) and 0.02 (21st) respectively. The doubling times of reported cases and deaths over the last 7 days are 22.4 days (21st) and 25.2 days (13th).

# Rwanda

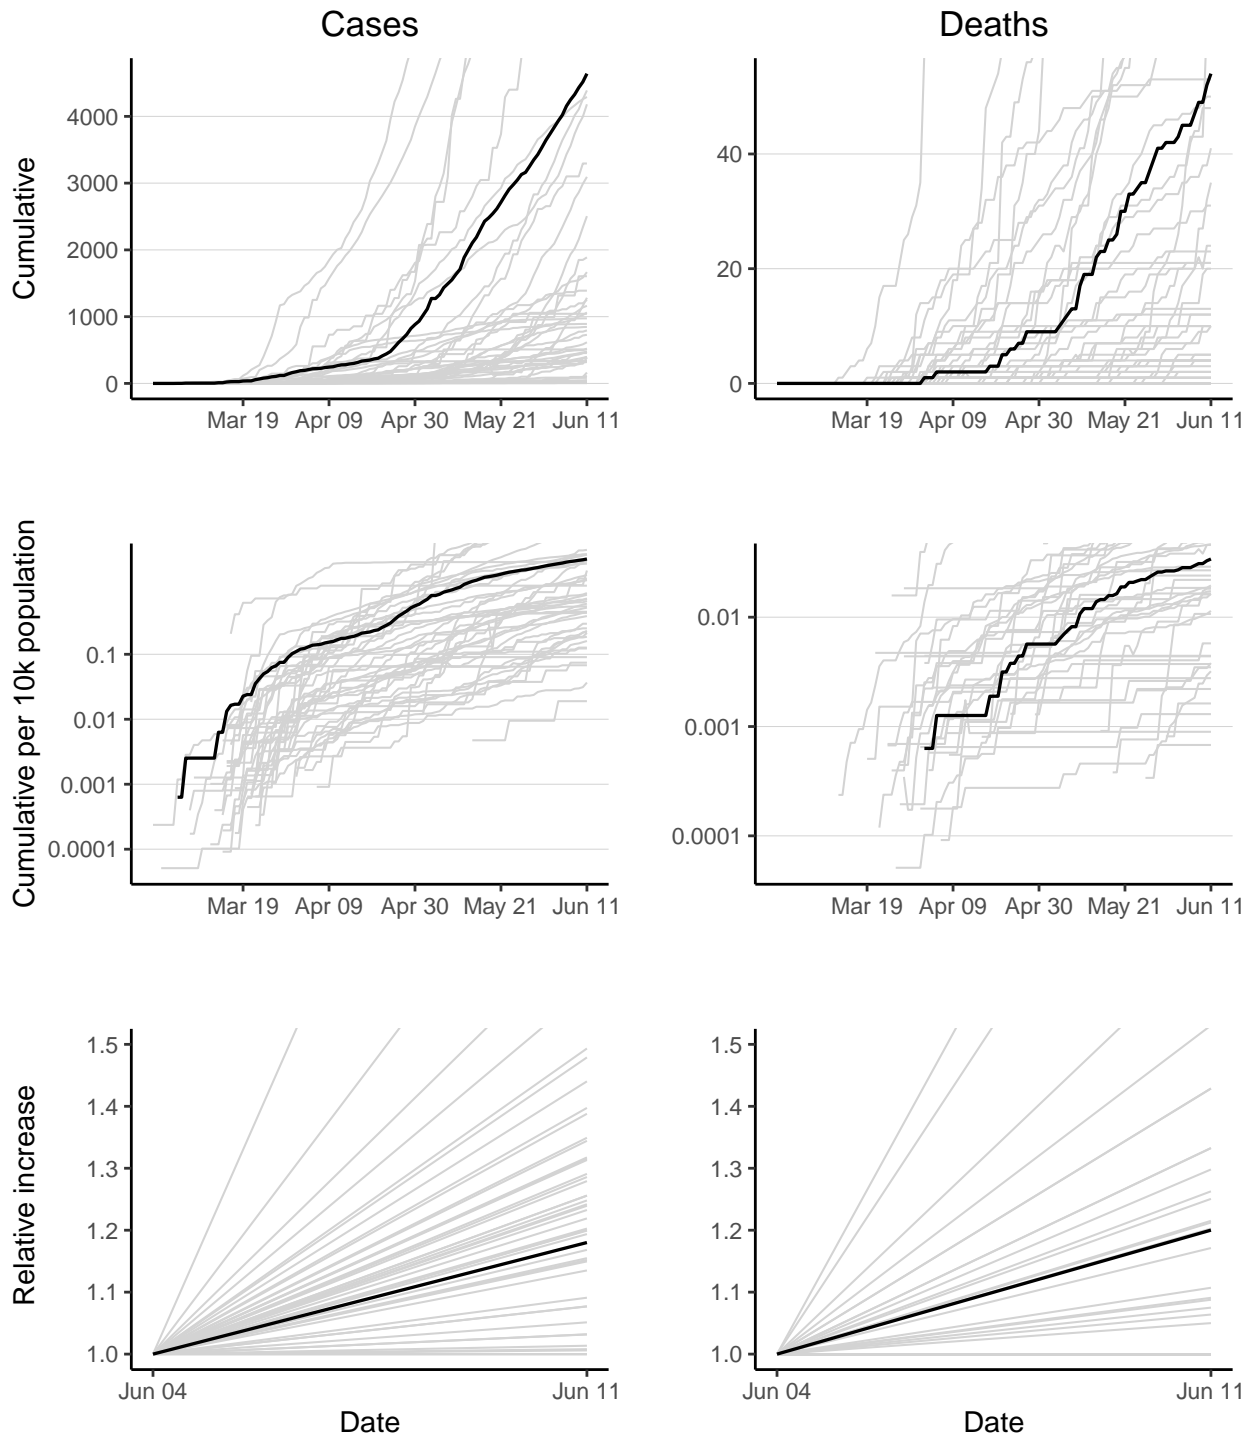

Rwanda has 476 reported case(s) (30th in the region) and 2 reported death(s) (39th). Cumulative counts per 10,000 population of reported cases and deaths are 0.39 (33rd) and 0.0016 (39th) respectively. The doubling time of reported cases over the last 7 days is 26.7 days (27th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Sao Tome and Principe

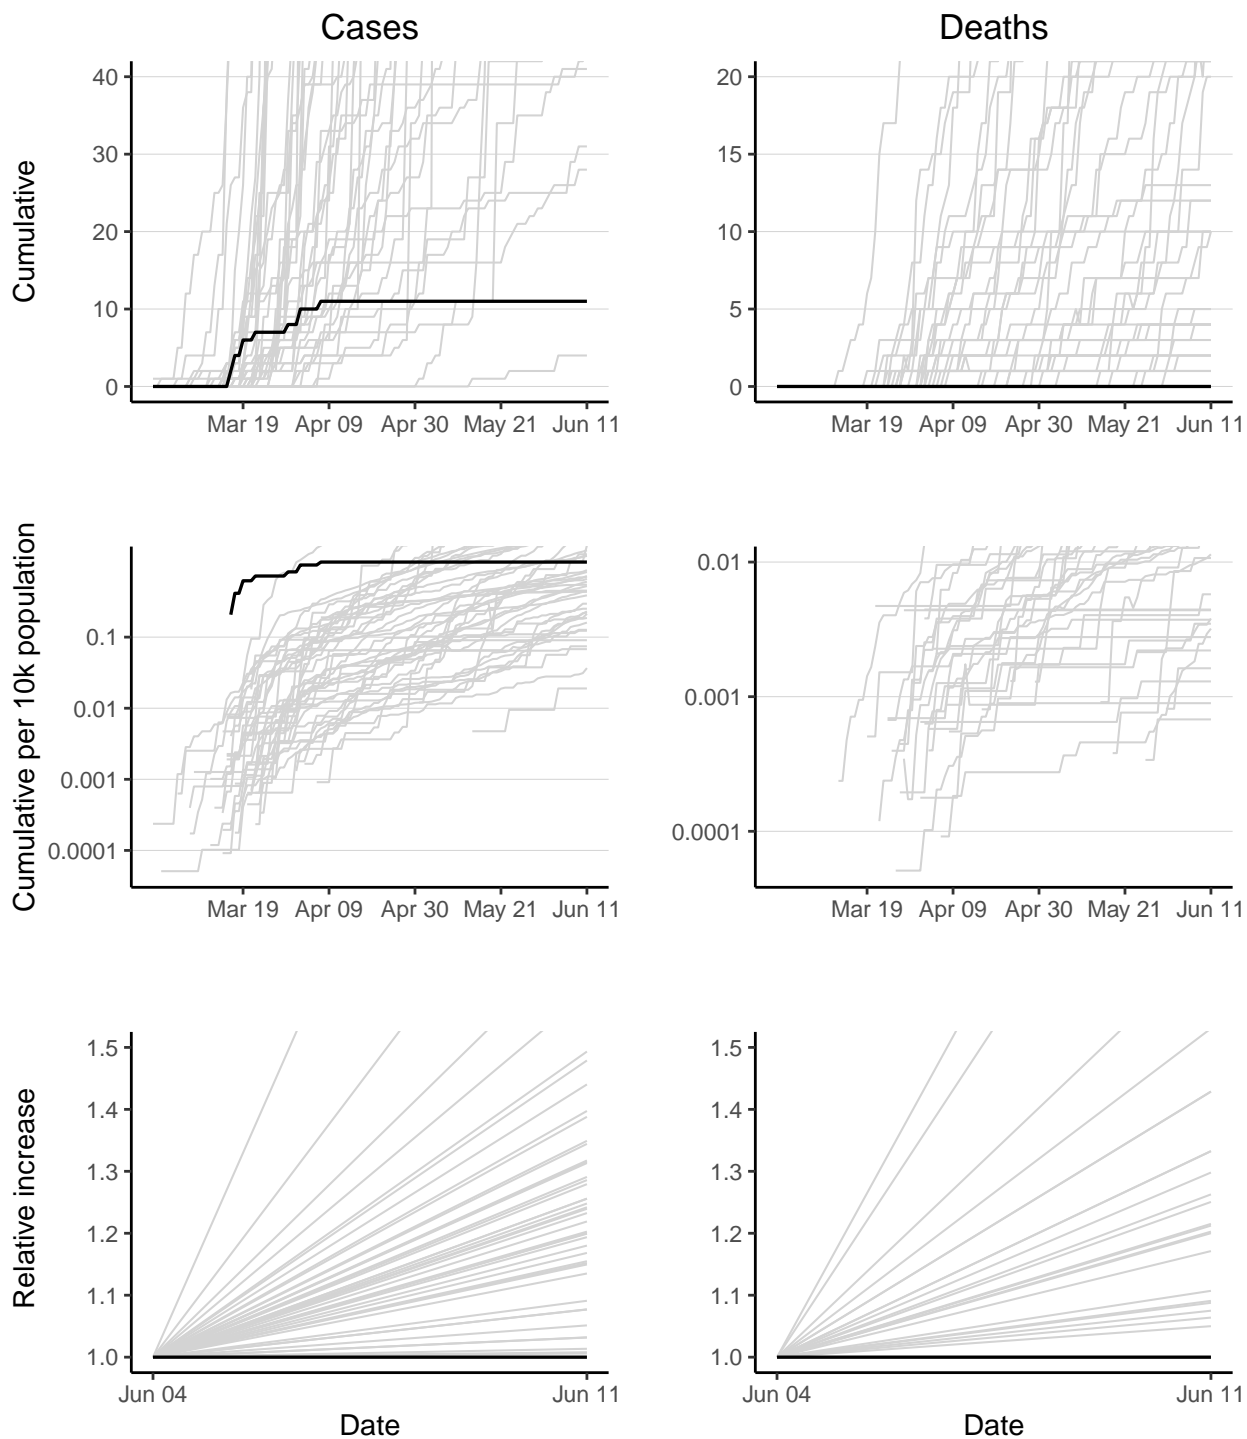

Sao Tome and Principe has 388 reported case(s) (35th in the region) and 10 reported death(s) (28th). Cumulative counts per 10,000 population of reported cases and deaths are 18 (1st) and 0.47 (1st) respectively. The doubling time of reported cases over the last 7 days is 17.7 days (13th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Senegal

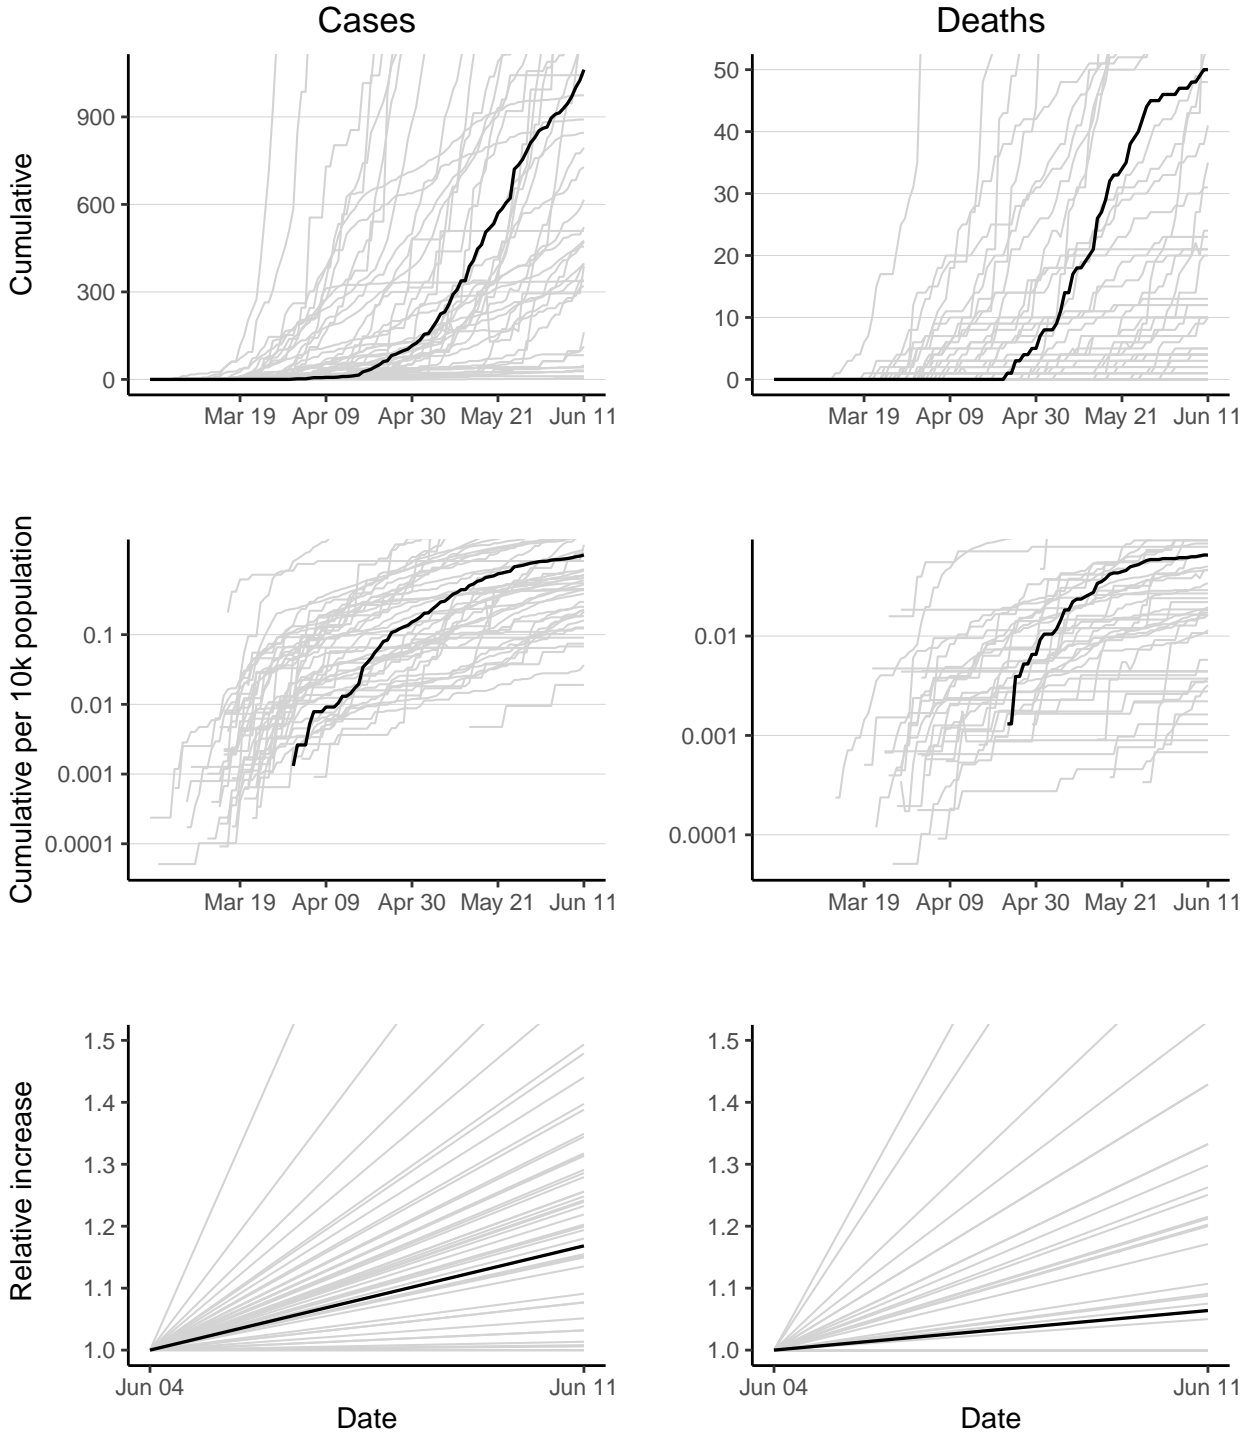

Senegal has 4640 reported case(s) (6th in the region) and 54 reported death(s) (11th). Cumulative counts per 10,000 population of reported cases and deaths are 2.9 (11th) and 0.034 (16th) respectively. The doubling times of reported cases and deaths over the last 7 days are 29.3 days (29th) and 26.6 days (15th).

# Seychelles

Seychelles has 11 reported case(s) (46th in the region) and 0 reported death(s) (46th). Cumulative counts per 10,000 population of reported cases and deaths are 1.1 (21st) and 0 (46th) respectively. The doubling time of reported cases cannot be calculated as no new cases have been reported in last 7 days. The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Sierra Leone

Sierra Leone has 1062 reported case(s) (20th in the region) and 50 reported death(s) (13th). Cumulative counts per 10,000 population of reported cases and deaths are 1.4 (19th) and 0.065 (10th) respectively. The doubling times of reported cases and deaths over the last 7 days are 31.2 days (30th) and 78.4 days (21st).

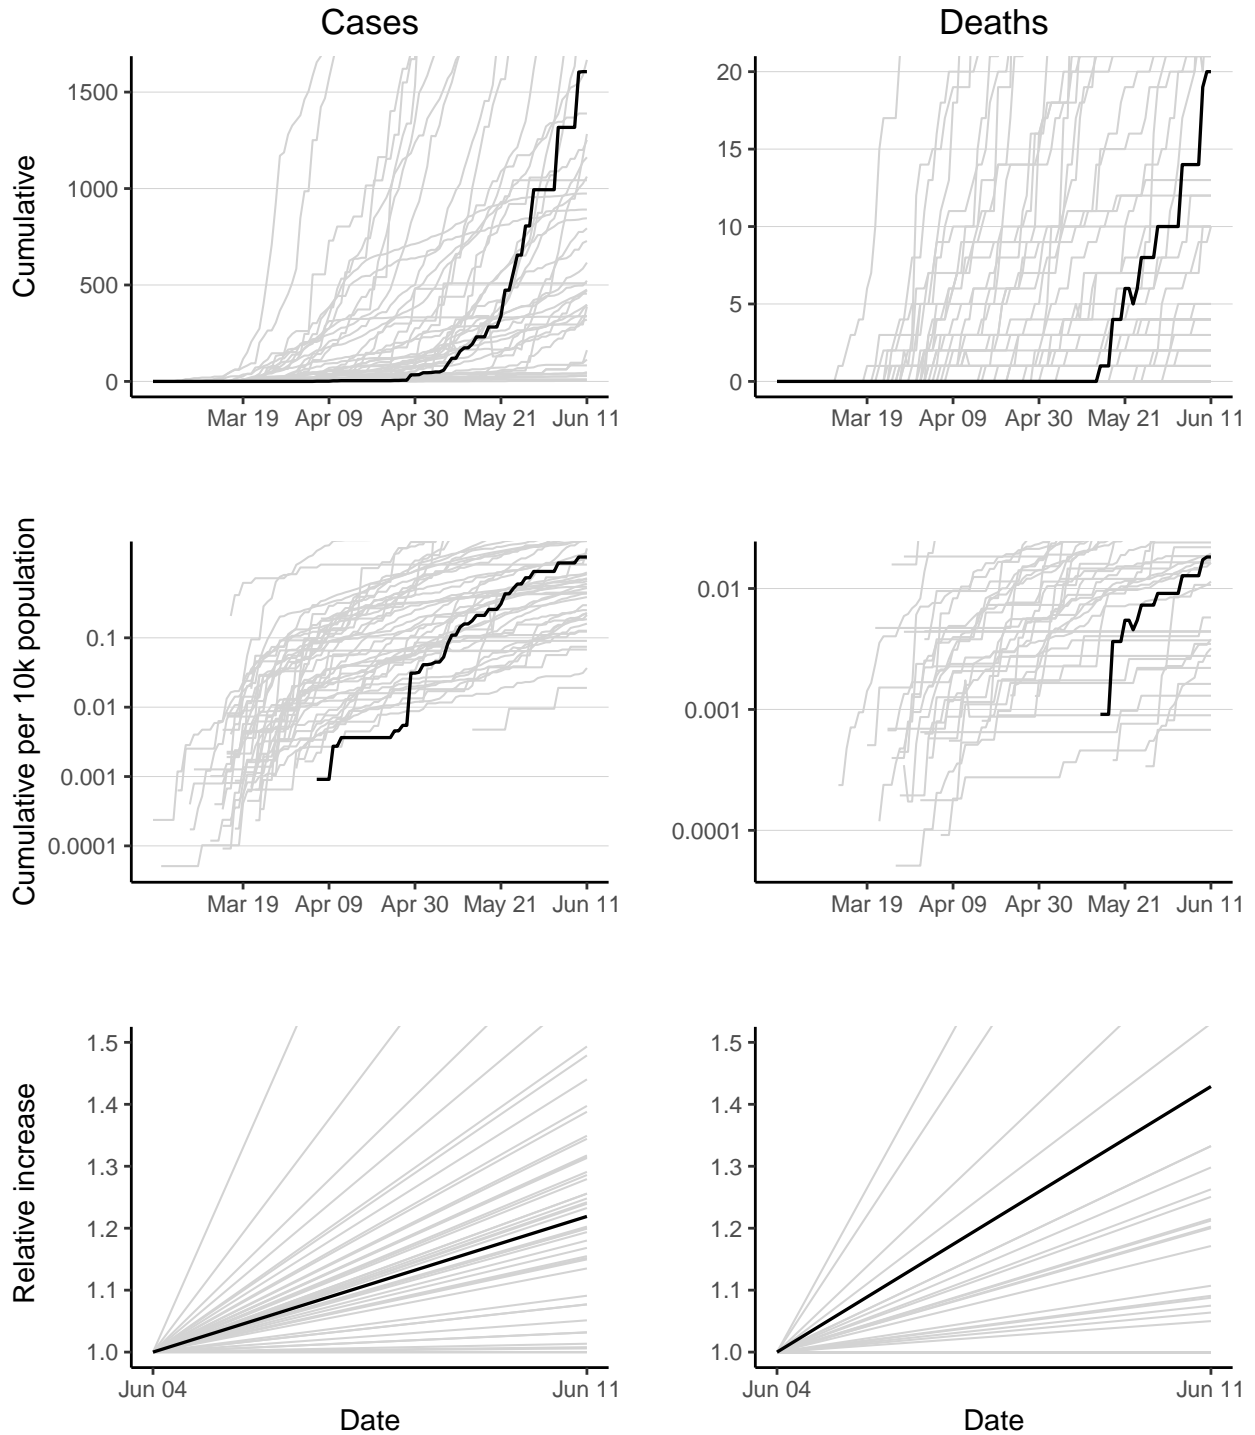

# South Africa

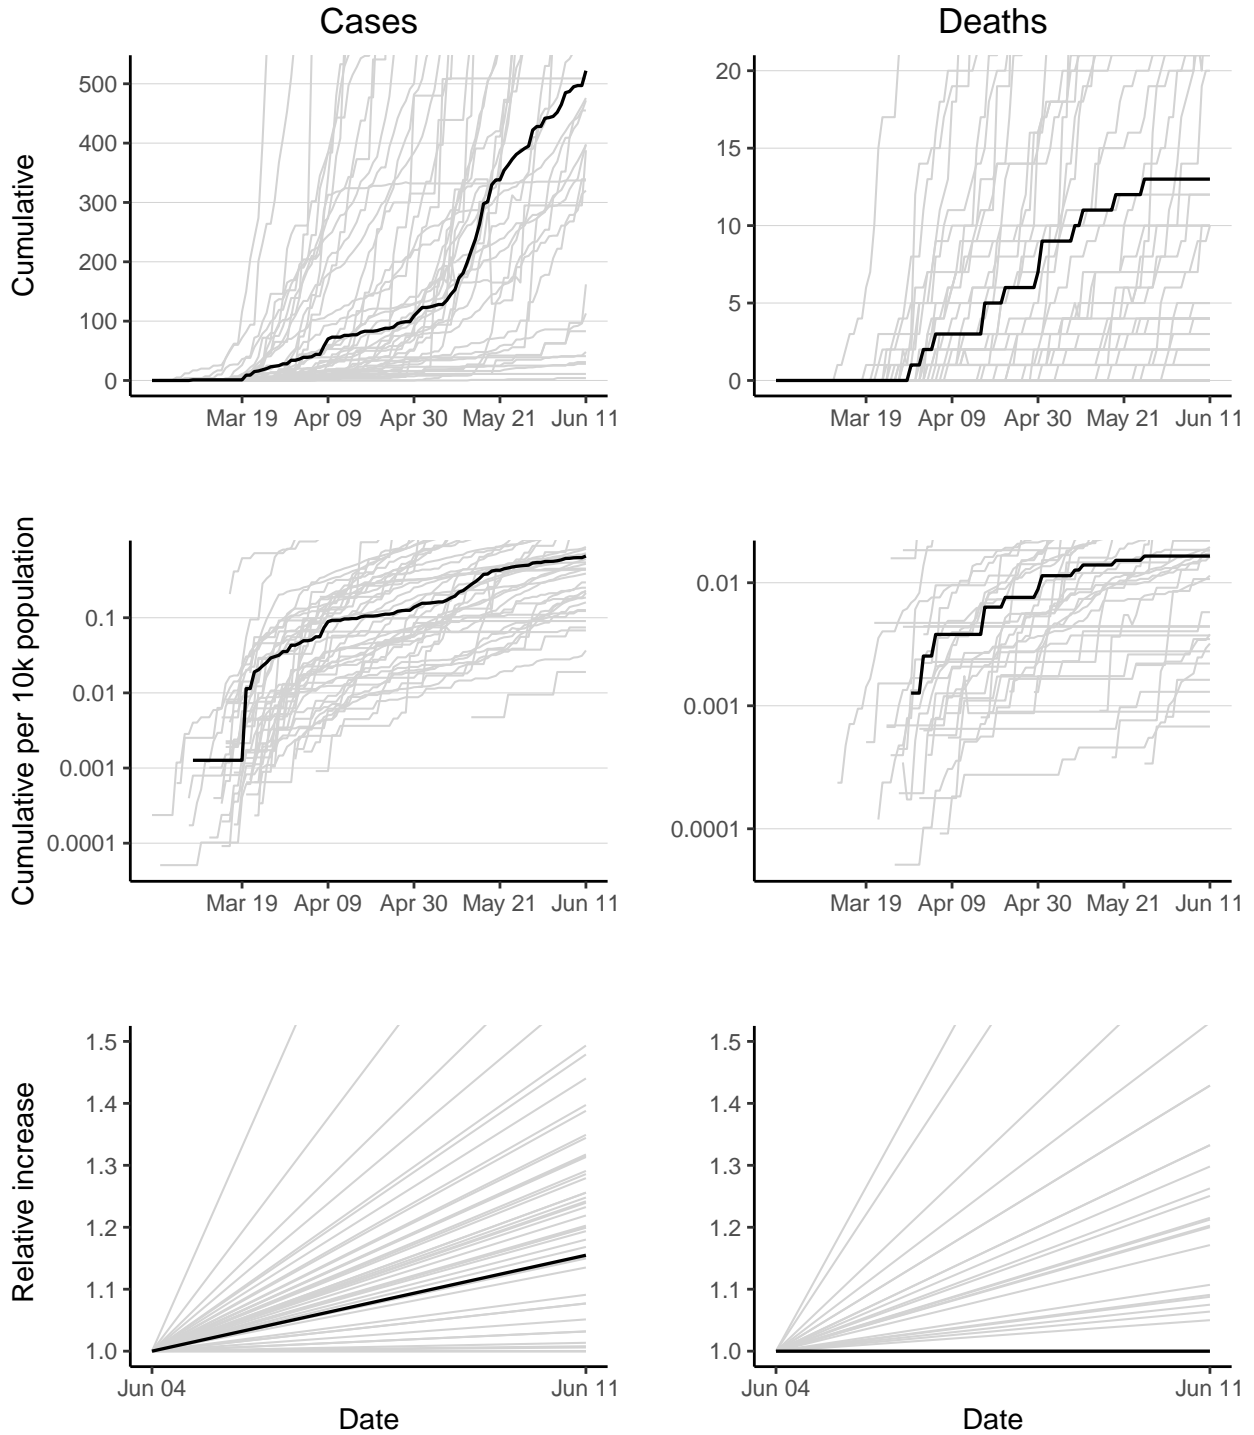

South Africa has 55421 reported case(s) (1st in the region) and 1210 reported death(s) (1st). Cumulative counts per 10,000 population of reported cases and deaths are 9.6 (4th) and 0.21 (2nd) respectively. The doubling times of reported cases and deaths over the last 7 days are 12.4 days (6th) and 11.4 days (4th).

# South Sudan

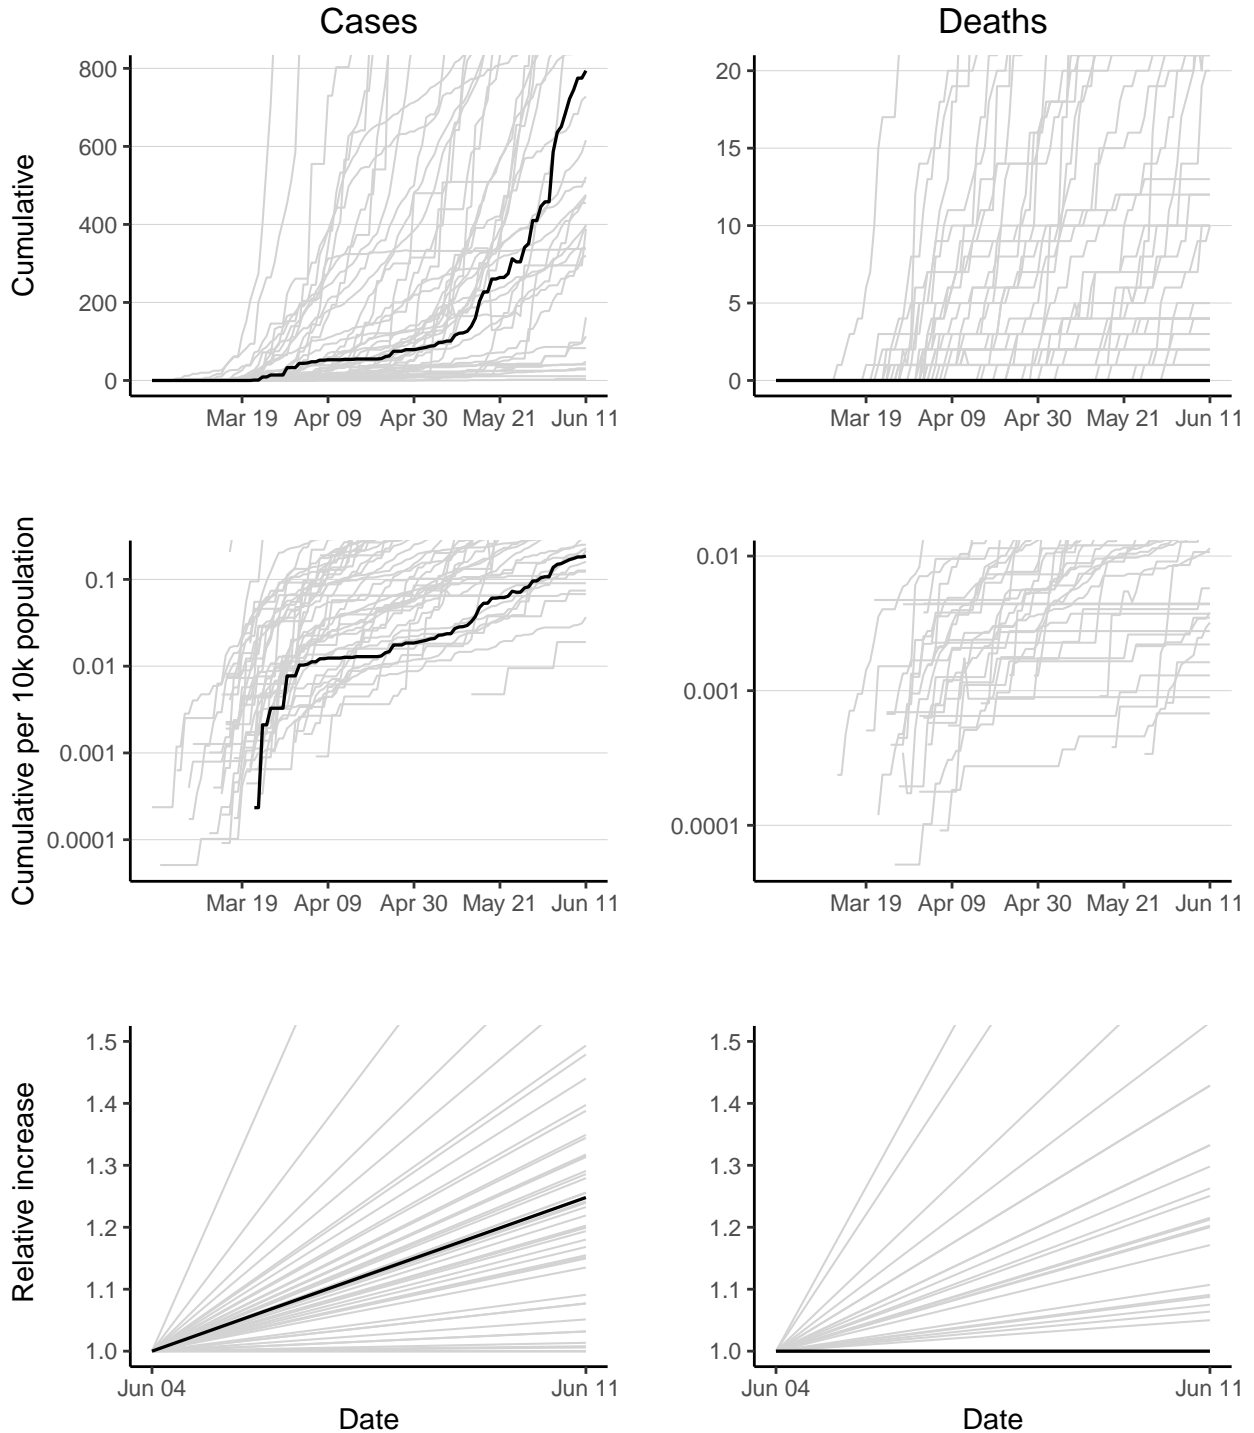

South Sudan has 1606 reported case(s) (15th in the region) and 20 reported death(s) (22nd). Cumulative counts per 10,000 population of reported cases and deaths are 1.5 (18th) and 0.018 (23rd) respectively. The doubling times of reported cases and deaths over the last 7 days are 24.5 days (24th) and 13.6 days (5th).

# Togo

Togo has 522 reported case(s) (28th in the region) and 13 reported death(s) (23rd). Cumulative counts per 10,000 population of reported cases and deaths are 0.66 (26th) and 0.016 (25th) respectively. The doubling time of reported cases over the last 7 days is 33.7 days (31st). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Uganda

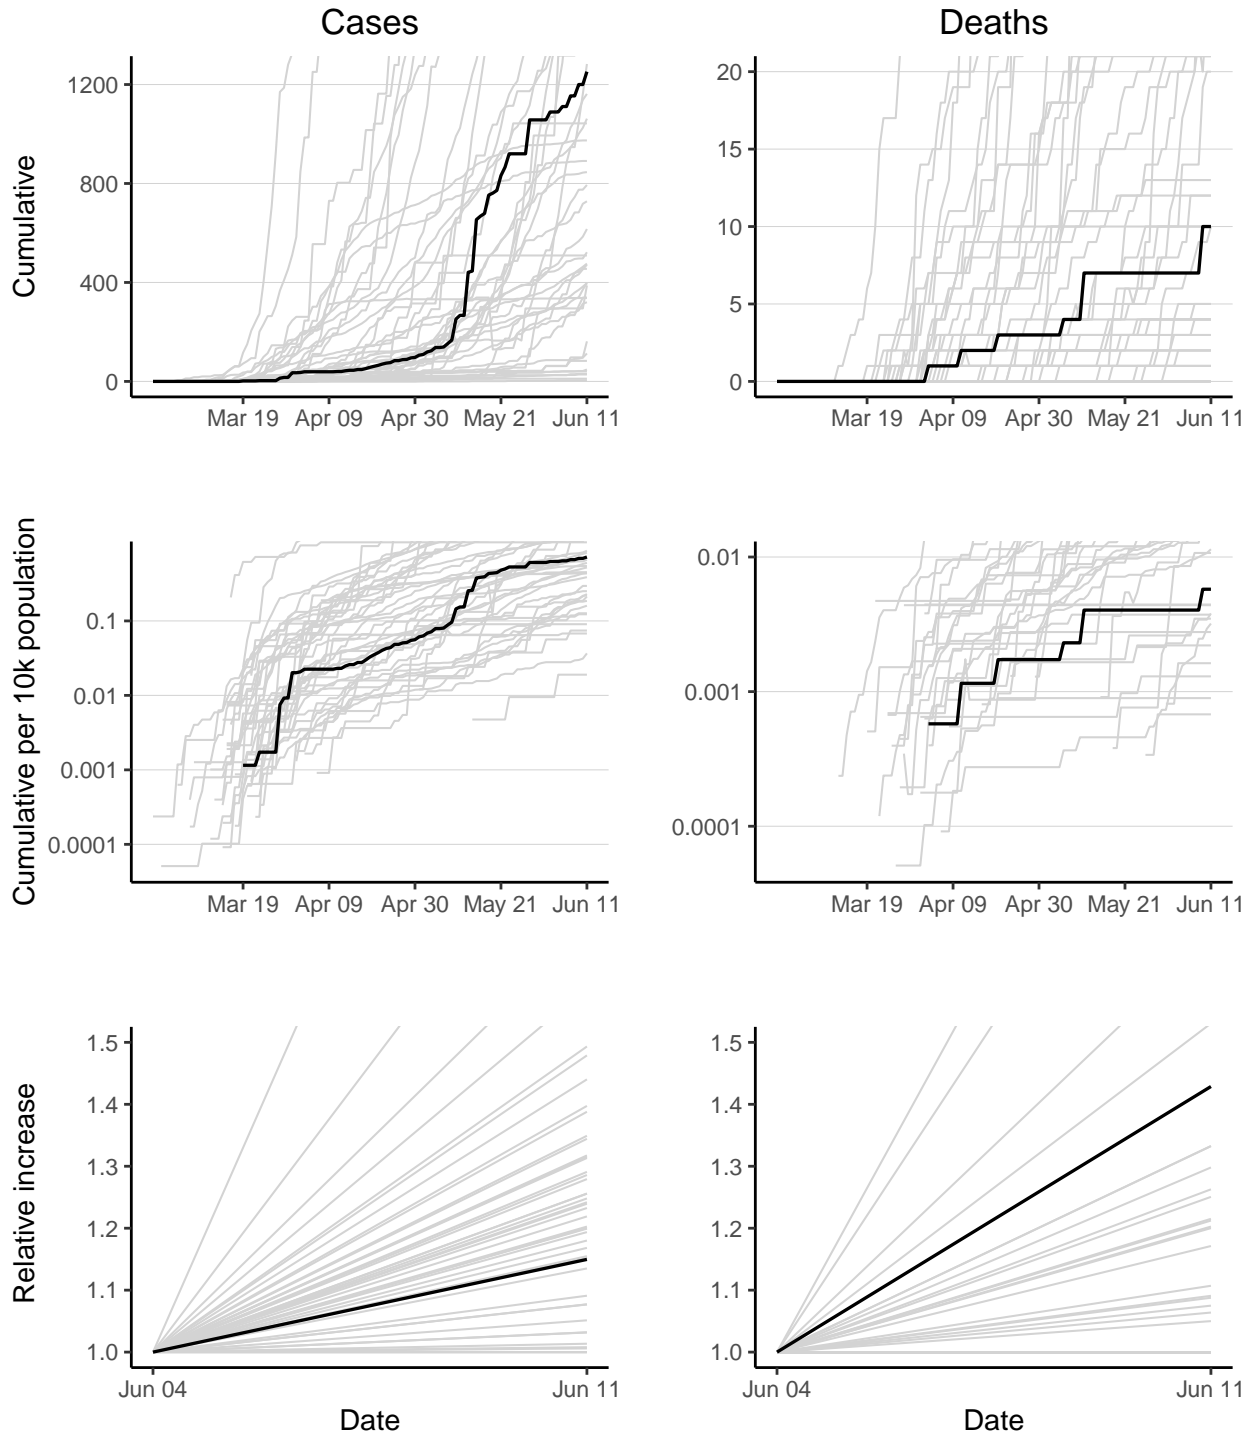

Uganda has 794 reported case(s) (25th in the region) and 0 reported death(s) (47th). Cumulative counts per 10,000 population of reported cases and deaths are 0.19 (39th) and 0 (47th) respectively. The doubling time of reported cases over the last 7 days is 21.9 days (20th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# United Republic of Tanzania

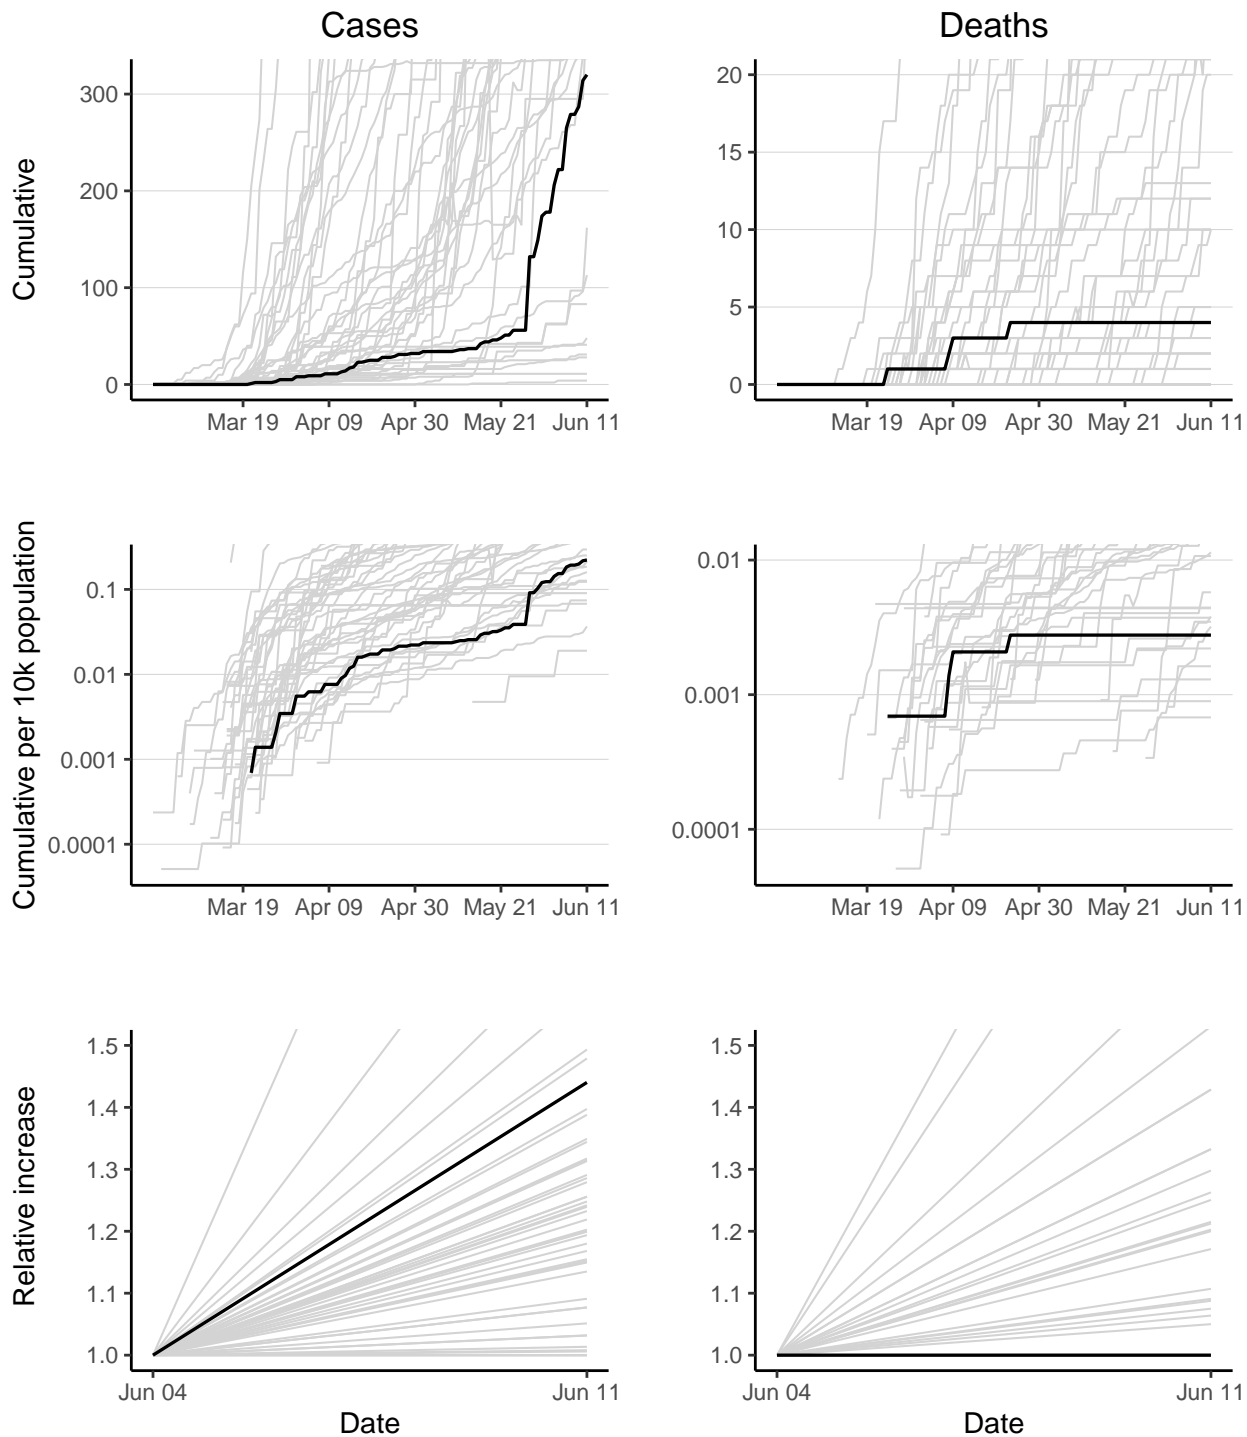

United Republic of Tanzania has 509 reported case(s) (29th in the region) and 21 reported death(s) (21st). Cumulative counts per 10,000 population of reported cases and deaths are 0.09 (43rd) and 0.0037 (34th) respectively. The doubling time of reported cases cannot be calculated as no new cases have been reported in last 7 days. The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Zambia

Zambia has 1252 reported case(s) (18th in the region) and 10 reported death(s) (29th). Cumulative counts per 10,000 population of reported cases and deaths are 0.72 (24th) and 0.0058 (30th) respectively. The doubling times of reported cases and deaths over the last 7 days are 34.8 days (33rd) and 13.6 days (6th).

# Zimbabwe

Zimbabwe has 320 reported case(s) (38th in the region) and 4 reported death(s) (35th). Cumulative counts per 10,000 population of reported cases and deaths are 0.22 (37th) and 0.0028 (37th) respectively. The doubling time of reported cases over the last 7 days is 13.3 days (7th). The doubling time of reported deaths cannot be calculated as no new deaths have been reported in last 7 days.

# Appendix

## Data

### Sources and access

- Case counts for countries in WHO Africa Region from WHO Coronavirus disease (COVID-2019) situation reports <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports> (accessed 2400 11/06/2020).
- Death counts for countries in WHO African Region from WHO Coronavirus disease (COVID-2019) situation reports <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/situation-reports> (accessed 2400 11/06/2020).
- Population counts from the World Bank (2018) <https://data.worldbank.org/indicator/SP.POP.TOTL?locations=ZG> (accessed 0900 30/03/2020).
- Sequenced SARS-CoV-2 genomes for countries in WHO Africa Region are from GISAID (accessed 2400 11/06/2020)

### Doubling time calculations

Calculated over prior 7 days using method described by *E. Vynnycky & R. White (2010) An Introduction to Infectious Disease Modelling*, page 74.

Confidence intervals calculated using bootstrapping of a simulated dataset with Poisson error structure, using method published here: <https://doi.org/10.1101/2020.02.05.20020750>.

### Caveats

- Case count data are affected by any changes in testing strategy or testing effort over time and/or any variation in testing strategy or testing effort between regions.
- Case count data are likely a substantial under-representation of the true number of COVID-19 infections.
- Death data are considered more reliable but may lag behind case data by as much as 3 weeks.
- Countries that have reduced their cumulative total cases/deaths in the last 7 days are assigned a doubling time of -1.

## Extended Data tables

### Cumulative reported cases

Country	Cum. reported cases	95%CI lower	95%CI upper
South Africa	55421	55048	55836
Nigeria	13873	NA	NA
Algeria	10484	10317	10651
Ghana	10201	10028	10369
Cameroon	8681	NA	NA
Senegal	4640	NA	NA
Democratic Republic of the Congo	4389	4277	4498
Guinea	4291	4181	4398
Cote d'Ivoire	4181	4074	4286
Gabon	3294	3205	3392
Kenya	3094	3004	3183
Ethiopia	2506	2421	2583
